CAR SHORTAGE IS PREDICTED

PUBLIC SERVICE COMMISSION ISSUES WARNING.

Instructions and Suggestions Given Shipper and Road.

Thos. K. Campbell, Frank J. Miller and H. H. Corey, constituting the Public Service Commission of Oregon, have issued statements concerning the prospective car shortage, offering suggestions as to overcoming what shortage may develop. Here are their statements:

To railroads and shippers: Owing to our unique location at the extreme end of the transcontinental lines, and the unprecedented scarcity of ocean carriers, which will necessitate the movement eastward of all of Oregon's bountiful crops by rail, the transportation situation in Oregon is now serious and threatens daily to become acute in the extreme. Past experience teaches that these car shortages result in the absolute demoralization of business, and to assist in relieving the present serious shortage, with its attendant damages, and preventing it becoming more acute, the commission makes the following suggestions:

Railroads are requested: To place all cars without unnecessary delay.

To move promptly all loaded cars from point of loading to destination.

To have necessary repairs made at once to cars requiring the same.

To pay particular attention to the distribution of cars in order that empties may be concentrated as much as possible near the centers of demand.

To co-operate to the fullest extent with the shippers in the matter of arranging and routing shipments so as to move the traffic with the minimum amount of equipment.

Shippers are requested: To load and unload all freight with the utmost promptness, regardless of the 48-hour free time limit permitted by our demurrage rules.

To load cars to full capacity (10 per cent above the marked capacity.) To order no more cars than are absolutely needed.

To give the railroad company immediate notice when car is released.

To order cars in writing, stating number wanted, time when and place where desired, kind of freight to be shipped, and the final destination. Application for cars should be made in writing to an official or general agent of the railroad, or agent at point nearest the station, switch or siding where the cars are to be loaded.

To bear in mind freight cars are for transportation of goods and are not warehouses, and while they are idle waiting for loading and unloading, from the standpoint of efficiency they might as well be out of existence.

Full co-operation between shippers and railroads, and with this commission, will do much to assist in relieving the car shortage situation.

If shippers or consignees, who have trouble with respect to cars, will inform the Public Service Commission, at Salem, it will be pleased to take the matter up promptly with the proper railway officials.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purposes for which is intended. Buy it now. Obtainable everywhere.—Adv.

Headquarters at Columbus is Shack.

Columbus, N. M., July 28.—Possibly the most insignificant structure in Columbus camp today is used as U. S. base headquarters and the office of Major C. S. Farnsworth, commandant of the base. It is a V-shaped building of mud, or adobe, with a canvas roof. The flag floating over is the only thing to distinguish it as headquarters.

The ceilings are low and the few widows badly chinked with mud. When the wind blows the major turns up his collar and puts on his goggles. On the earth pine boards have been laid for floors. Adobe unadorned, forms the walls of the office. A sheet iron stove is set in a box of sand. The walls are covered with detail maps of Mexico and Chihuahua, showing the truck routes and water holes.

In the office alert orderlies wait for orders to rush messages to the wireless station or telegraph office.

Should Sloan's Liniment Go Along?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Writes one vacationist: "We use it for everything from pramps to toothache." Put a bottle in your bag, be prepared and have no regrets.—Adv.

When You Buy Samples

You have the satisfaction of knowing that you have bought the best that is made and at a saving of one-third or more to you. A trial will convince you.

JIFFY-JELL

With Flavors in Vials

A NEW IDEA IN FRUITY QUICK DESSERTS

There is no artificial flavors in JIFFY-JELL. The artificial are never like the real. The flavor is never mixed with the Gelatine powder. Therefore its freshness is preserved. You don't have to flavor the gelatine with the juice of the fruit itself—that is costly. And the bulky juice often makes the dessert too soft. Each package of Jiffy-Jell contains a small vial. The vial contains the essence of fruit juices which has been reduced to minimum bulk.

This concentrated flavor, made from natural fruit, is kept fresh until you use it. Try a Jiffy-Jell Dessert—It is made in a minute. From the vial put in the fresh fruit juice essence. Then serve.
