COMB SAGE TEA INTO GRAY HAIR Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

MORE FLOUR BRANDS RISE

OUTSIDE FLOURS FOLLOW LEAD OF HOME KINDS.

Milton Peaches and Tomatoes Coming Forward in Fine Shape. On the heels of increase in home flour yesterday came new rises in outside flour this morning. It was a five-cent boost on the sack quotation.

Profit in Stock. A government bulletin says: That cattle in most cases add to the farm income in the corn belt is indicated by the results of a recent investigation conducted by the department as part of a comprehensive study of the meat situation in which its specialists have been engaged for some time. The direct profit from the raising of calves in this section, the averages seem to establish, is usually small, but the investigators point out that there are other factors which make the practice more advantageous than would appear at first sight.

Among these advantages are the fact that live stock on the farm provide a home market and a means of utilization of farm roughage, some of which might be wasted if not fed, and the use of pastures which could not be employed profitably in any other way. Live stock also affords a ready home market for certain other crops, which at times would have to be hauled considerable distances to be sold. Finally, the presence of live stock on the farm gives productive employment throughout the year to labor which at certain seasons might otherwise be idle. Live stock also gives some interest on capital invested on equipment, which would produce nothing if not utilized at all

seasons. The fertilizing value of manure also must be considered. When these factors are taken into consideration, even though there appears to be little or no profit as shown by cost figures, it is believed that in most instances the farm income is greater because of cattle having been kept on the farm. The keeping of live stock, therefore, is to be recommended on farms having large quantities of cheap roughage available or having land which can be best utilized as pasture.

The figures of costs cited by the investigators are purely averages based on actual farms and herds investigated. The investigators obtained in 1914 and 1915, 596 records from farms in Indiana, Illinois, Minnesota, Iowa, Missouri, South Dakota, Nebraska, and Kansas. These records dealt with 14,634 cows, 621 bulls, and 12,591 calves produced from them, of which 2,028 were classed as baby

Safeguard Your Child. If your child is pale, dull, at times flushed, irritable and fretful you should attend to this condition at once as the chances are your little one is suffering from worms. Just the Thing for Diarrhoea. "About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.
