New Barriscale Role Replete with Romance.

Although many photodramas have been written around plots dealing with the doings of royalty in mythical kingdoms, J. G. Hawks, of the Thomas H. Ince staff of photo playwrights, the author of "Bullets and Brown Eyes," the "Triangle Kay-Bee" feature in which Bessie Barriscale is starred, is declared to have set a new stand-

ard for this kind of production. Though the production is said to be replete with thrills and the tragedy of battle, the author has laid stress on the fact that it is a romance.

With Miss Barriscale ever in mind, the author has written a sympathetic role in which she appears as the heroine of many stirring adventures. These she shares with William Desmond, who plays the chief supporting role, one which portrays him as a reckless young leader of light cavalry who terrorize the people of the enemy's country, and finally brings him face to face with the star in a situation charged with dramatic possibilities.

Hawks, before becoming a photo

playwright, passed through stirring adventures in many of the outposts of the world, as soldier, actor and explorer. This thrilling photoplay is at the Arcade Wednesday and Thursday.

### Just the Thing for Diarrhoea.

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.

### Colorado Miners Assemble.

Colorado Springs, Colo., Aug. 14.—Delegates from the Rockefeller mines in Colorado were prominent at the opening of the annual convention of the state federation of labor here today.

The miners of the Colorado Fuel and Iron (Rockefeller's) company are flocking back to the United Mine Workers' Union.

Recent open organization meetings in the Colorado coal fields have been attended by representatives of the Rockefeller company as well as the miners whose union affiliations were condemned in the historic strike of 1913-14.

"There is no talk of a strike," said President McClennan of the state federation today. "The men are not threatened with discharge for joining the United Miners. The C. F. & I. apparently is making good on its promise not to discriminate against union men."

"But the fact that the men in Mr. Rockefeller's mines are again joining the union means that the company's 'industrial representation plan' isn't all that the men desire. The men feel that their representatives in 'Rockefeller's union' are selected rather than elected. The miners want an organization of their own, supported by themselves."

"Mr. Rockefeller's industrial representation plan is paternalistic. The miners feel they are being spied upon. Their representatives in the Rockefeller union are selected at small meetings which only a small proportion of the miners attended."

McClennan stated that the Rockefeller company had instituted great improvements in the way of Y. M. C. A.'s moving picture shows and "social service."

"But the wages of the coal miners have not been increased. They are still being paid about 55 cents per ton and the demand during the great strike was for a 10 per cent increase on this amount."

"One good thing—the saloons in the Rockefeller camps have been abolished under the state prohibition laws."

"A feature at the convention today was the strict enforcement of the rule that every delegate must wear at least five articles of clothing with the union label."

### Cure for Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.

Scene from Remarkable Picture at Sherry's Today Only.

Did you see Cabiria? If you missed that masterpiece, you have certainly heard about it, and of course you know about the wonderful "giant" in that great film. His work was so unusual that he became the star of this greatest of all photoplays, even though the part was not originally considered a star part.

And now you can see this "wonder man" again. No, he is not a colored giant from Africa—he is a white gentleman.

"Maciste" was his name in "Cabiria" and now and forevermore he will probably be known as "Maciste." The new feature film in which this "super-man" has been starred, was written especially for him and it is a wonder work of amazing acts, tantalizing thrills and stirring struggles. Maciste fights with scores of men and seems to enjoy the battles.

The most remarkable thing about this very unusual film is the fact that it is both comedy and tense, exciting drama. There is an element of mystery which holds and the action moves with a speed that will bring you to the edge of your seat.

to display his super-human power. And he is not only a marvel of strength, he is a finished actor.

### Motion Picture News:

"Something new in every scene. The big thing of the season up to this moment. It is the sort of thing that anyone will enjoy immensely. There is a directness and incisive unusual melodrama. It will amuse, entertain and satisfy because of its novelty and ingenuity."

The Dramatic Mirror: "It is thrilling, exciting, intensely interesting and laughably amusing. The most startling claim it has for popular approval is its novelty and ingenuity. We are free to admit that this offering was one of the most entertaining that it has been our pleasure to witness."

The Moving Picture World: "Entirely new and highly ingenious. Will undoubtedly prove to be a big drawing card wherever shown. It grips the interest from the onset."

The Billboard: "A welcome novelty. The most entertaining of all the exploits type of production seen to this day. Radiates with what is called personality. Never before has there been such a figure as Maciste who is always a comedian."
