## "Food Is Its Own Best Digestant"

"All too frequently, we prescribe medicines for patients who suffer from indigestion, when, as a matter of fact, what they actually need is a simple course of dietetic training, and the proper food-stuffs to train on.

"This is the famous 'reason' for the popularity of Grape-Nuts as an article of diet, viz., that it furnishes this very course of training for the diastase for the process of digestion, but it favors a return to normal digestive function because the firm, crisp kernels compel thorough mastication.

"One ought not to leave out of consideration the psychic element—the delicious treat to the palate afforded by a dish of Grape-Nuts and cream."

From April, 1916, American Journal of Clinical Medicine
