MUTTON HAS LIBERAL RUN

HOGS LIMITED AT PORTLAND YARDS. Steady Situation Prevails in Cattle Lines This Week.

Portland, Aug. 21.—Surprising increase was shown in the marketing of mutton and lambs at North Portland over Sunday. Total run was 3632 head compared with 944 last Monday and 1567 last year for this same day.

In general there was practically no change in the price situation during the morning. Very limited run of hogs in the North Portland yards over Sunday forced extreme strength in the position of the swine trade and last week's loss was mostly recovered at first sales.

In the initial trading for the week the market for cattle was considered steady at North Portland. There was a fair run over Sunday but the total was much better than the small showing of last Monday. Early sales of good steers were made around \$7.

Mr. Went-And-Cut-It—Here's Mr. 'Gets-It'

The New Plan Corn Cure That's as Sure as the Rising Sun.

"Glad to meet you!" says the razor to the corn. "I'll bleed for you!" says the corn to the razor. Razors and corns love each other. Corns love to be cut, picked, gouged, salved, plastered and jerked out—they grow faster. Mr. and Mrs. Went-And-Cut-It realize it now—they use "Gets-It" instead—it's the wonderful, simple corn-cure that never fails. Stops pain. You apply it in 2 seconds. It dries at once, the corn is doomed. Nothing to stick to the stocking or press on the corn. It means good-night to plasters, salves, diggers, razors and toe-bundling. You can wear smaller shoes. Your corns will come right off, "clean as a whistle." Never inflames healthy flesh. The world's biggest selling corn cure. "Gets-It" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in La Grande and recommended as the world's best corn remedy by C. D. Putman.

TEMPORARY INSANITY.

Caused by Mental Trouble Somewhat Akin to Epilepsy. Is there such a thing as temporary insanity?

Many people think that the expression merely covers the kindly intentions of a jury to save relatives pain, but numbers of doctors who have made a study of mental disorders emphatically declare it is no idle term.

One doctor has stated that temporary insanity is a condition of double consciousness, not dissimilar to epilepsy. A person normally quite sane may have attacks of temporary aberration lasting little more than a few minutes, especially after long bouts of hard, continuous mental work, being particularly liable if insomnia supervenes.

Crimes have been committed in the early morning, when the perpetrator has not really been properly awake and has been horrified to find what he has done. This is a true case of temporary insanity, but it is comparatively rare, and a man in normal health would not suffer in this way.

A specialist in mental diseases has stated that he knew a case in which a person was insane during a certain time each day and that others have been known when the patient was quite normal at ordinary times, but suffered from a temporary fit of mania regularly once a month.—Pearson's Weekly.

REAL WHITE AFRICANS.

One Native Race, the Berbers, Have Fair Skin and Light Hair. Most people imagine all African tribes are dark skinned people, but this is a wrong impression. The Berbers are an African race, and, although they have lived on the dark continent for ages, they are white as Europeans.

They are very fine looking people, with white skin, fine complexion and many have blue eyes and very light hair, and many of the women and young people have very pretty rosy cheeks.

It is pretty generally believed the Berbers originally came from southern Europe centuries ago, and the race has remained distinct all these years in spite of the odds that would seem to be against them.

Many of the Berbers are very industrious, and some show considerable mechanical skill, having invented a number of devices that are in use among the people of their own tribe.

If they dressed and lived as Europeans it would be difficult to detect them from our more modern people, but in their own way in the dark continent there is nothing to indicate their origin except their color, which has remained perfect for all these long years as if they came from Europe.—New York American.

Secrecy in Parliament. Heavy penalties are inflicted for the revelation of parliamentary secret session or cabinet decisions, but they cannot well be heavier than those which the parliament of Henry VII, inflicted for a similar offense. One member of the house of commons was foolish enough to tell the king himself what the commons had been debating. He was sent to the tower, and a special act of parliament was passed by which he and his posterity were barred from sitting in the house of commons as the "representative of any place whatever."

In the days of Queen Elizabeth a certain Mr. Hall, M. P., was found guilty of revealing the debates in the commons. He was expelled from the house, sent to the tower for six months and fined £500—a considerable fortune in those days.—London Spectator.

Dark Nebulae. A new astronomical belief is that there are not only dark stars in space, but dark nebulae. The dark stars are invisible, revealing themselves only by their effect on the motion or light of bright stars, but dark nebulae may be visible as unlighted masses showing against the feebly luminous background of space. Professor E. E. Barnard notes that many striking dark patches of sky hitherto supposed to be simply starless regions may be really dark nebulae. The case of Hind's nebula in Taurus, which is now feebly visible after completely fading away from a state of conspicuous brilliancy shows that a nebula may lose its light, and perhaps many have never had any light.—New Orleans Times-Picayune.

Precedent. "Have you ever had any experience in this business before?" "No, sir." "Ever thought anything about it?" "No, sir." "And yet you want me to appoint you general manager of this company. Where did you get the idea?" "Well, you know that's the way our government appoints its cabinet officers."—Life.

The Lesser Evil. Old Grump—Why doesn't Ethel marry that young bloot? I'm getting blamed tired of his coming here so much. His wife—I believe I'd prefer to have him come here. If she marries him he'll stay here.—Boston Transcript.

The Headache Excuse. "Does your wife suffer from headaches much?" "Only when I want her to do something that she doesn't want to do."—Detroit Free Press.

A Cruel Comparison. "Why does he say that her face is like one of Browning's poems?" "Because it has some hard lines in it."—Buffalo Express.

Building For The Future

The young business man measures the importance of his enterprise by the vision which he has of its ultimate growth.

The Officers of this Institution, in like manner, measure the importance of his bank account, not by the size of its initial deposit but by its possibilities for development.

We cordially invite the accounts of young men embarking in the business world.
