RULES AND REGULATIONS

The following regulations governing the Camp of Instruction for Civilians, in this department, are published for the information and guidance of all concerned.

Purpose

1. To help properly qualified men to fill the great deficiency in officers and non-commissioned officers that would immediately arise in case of national emergency, by giving them four weeks of intensive military instruction in the field under regular officers, and with troops, of the Regular Army.

To foster a patriotic spirit and spread among the citizens of the country some knowledge of military history, military policy, and military needs.

To instill in four weeks of outdoor life the habits of obedience, discipline, command and self-control that are the prerequisites of efficiency in every business or profession, and to send men back from the camps better prepared to take care of themselves and of others.

Qualifications

2. Applicants must be (1) citizens of the United States, (2) of sound physical condition, capable of the severe physical work of drill, and manoeuvres with full infantry equipment; eyesight normal or corrected by glasses, (3) at least 18 years of age and under 50, (4) students in public or private schools who have reached a grade equivalent to senior class high school, or graduates thereof; un-

dergraduates and graduates of colleges and universities; other citizens not included above who have the equivalent, i. e., a good elementary education, which has been supplemented by business or professional training. Qualifications must invariably be stated on application blank. The requirements as to physical qualifications are not so strict as in the Army, only an organic disease or some disability that would prevent marching or render the applicant liable to ill effects from the active outdoor life of camp will be considered a disqualification. To insure certainty on this point, and for their own convenience, intending applicants should first be examined by a physician.

Periods Of Camps

- 3. Monterey, California, July 10—August 5.
- American Lake, Washington, August 28—September 23.
- Fort Douglas, Utah, August 21—September 16.

Camp Equipment

4. The Government loans tentage, ponchos, sweaters, ammunition, and ordnance, including field equipment.

Local authorities must furnish camp sites, drill grounds, running water, and electric lights (the latter in mess-shacks, Y. M. C. A. tents, officers' and orderly tents, latrines, and shower baths). They must also pay for any damage to crops or private property caused by the troops on manoeuvres.

Uniform And Personal Equipment

5. Each man must have: 1 pair tan marching shoes (broken in); medium weight woolen socks; underwear; 2 pairs of olive drab cotton breeches; 1 pair leggings (army pattern); 2 olive drab shirts; 1 waist belt (army pattern); 1 service hat and cord (this cord is manufactured expressly for these camps); and the necessary toilet articles.

The regular army shoe is recommended but any good tan leather

hunting or tramping shoe will be permitted.

Bathing trunks are recommended.

Civilian clothing, etc., in trunks and suit cases will be properly stored during the period of encampment.

Clothing must be purchased by the individual, the cost of which should not exceed \$15.

Expenses—Exclusive Of Clothing

6. A deposit of \$30 will be required on reporting at camp. This sum covers board, other camp expenses, and includes \$5 required to be deposited to cover any loss or damage to United States property; this latter amount is refunded in case no loss or damage is incurred.

The cost of transportation to and from the camps must be borne by the individual.

Inoculation—Not Obligatory

7. It is strongly recommended that the typhoid prophylaxis inoculation be taken at the camp or before, if preferred. (No charge for this treatment at the camp or for approved applicants at any garrisoned post in the Western Department.)

Instruction

8. The instructors are officers of the Regular Army. Each company will have attached to it five non-commissioned officers of the Regular Army.

The purpose of the instruction will be to give each attendant as much of the fundamental education of an officer as can be imparted in the duration of the camp. A certain definite routine will be prescribed for all, including infantry training and rifle practice.

Organization

9. Attendants at the camp will be divided into companies of infantry commanded by the officers of the Regular Army. Attendants are on a Cadet basis.

Books On Military Matters

10. It is recommended that the following books be read before attend-

ing camp: Manual of Military Training, by Capt. James A. Moss, U. S. Army; Self-Helps for the Citizen Soldier, by Capt. James A. Moss and Merch B. Stewart, U. S. Army; and Privates Manual, by Capt. James A. Moss, U. S. Army. These three books, popularly known as "Moss' Three-Inch Library for the Citizen-Soldier", may be obtained through these headquarters for \$3.00.

The Western Department of the Army comprises the States of Washington, Oregon, California, Idaho, Nevada, Utah, and Montana.

Citizens desiring to attend this camp must make application to these headquarters for authority to do so. Application blanks will be furnished on request.

11. The Army Reorganization Bill, which became a law June 3, 1916, provides that the Government shall furnish uniforms clothing, and subsistence free to those who attend civilian training camps; the provisions of this law cannot be carried into effect until such time as Congress shall have appropriated the necessary funds. The Army Appropriation Bill now pending provides \$500,000 for this purpose. It cannot be foreseen when this Bill will become law. Under the circumstances it now becomes essential to return to the conditions originally announced on March 6, 1916; that is those who attend must defray the cost of their own transportation and subsistence and pay for their own uniforms. These are the conditions under which the camps have been held in previous years and are the conditions which now prevail at Plattsburg and Fort Oglethorpe.

All correspondence relative to these camps should be addressed to

England Saved American Cotton Planter.

London, Aug. 3.—(By Mail)—That the British government decided not to let American cotton to go below 8 1-2 cents a pound to planters; that it prepared to spend 250 million to prevent possible cotton panic in America and that it sent agents to United States to buy cotton in unlimited quantities to keep the price normal; and also that these agents are still in the United States, are facts given to the United Press today. The British government, when it decided in 1915 to make cotton contraband, realized that it might cause a panic in the United States. Felix Rose, who directed the British plan to prevent this, told today how he did it. "We had to declare cotton contraband," said he, "but we wanted to protect the cotton planters. We knew the speculators would make capital of the order in council and drive cotton prices to ruinous depths. So the British government decided to go into the market as a buyer. I looked over the market and decided we should be ready to buy five million bales; and we had to have 250 million dollars at our disposal constantly. We thought the planter should not get less than 8 1-2 cents, so we sent agents to the United States with unlimited authority to buy. That was in July of 1915. We told the American government of our plan. On August 18th the king signed the order in council declaring cotton contraband. "No panic followed. What we had done was not generally known and the strength of cotton in the open market must have been a mystery to the speculators. In the first week cotton went up a cent. Within a month it was up 3 1-2 cents. So the planters received \$60,000,000 more for the crop that year than they would have received in normal times. "Is the British government ready to follow with the same action for the 1916 crop?" was asked. "It looks as if the 1916 crop would be able to sell itself without British aid," said Rose. Rose, an English subject, has been in the cotton business all his life. He added in conclusion that every bale of cotton that has been seized by the British has been paid for, and no shipper has lost money except possibly on cotton for which he would have received an exorbitant profit if he had gotten it to Germany instead of its being seized by the British. Every bale seized, he said, has been sold to spinners in England and not a single bale remains in storage.

Snow Drop

The most wonderful flour on earth or anywhere else for the money.

\$1.65 Per Sack

The sale on this Famous Flour is greater than the combined sale on 14 other brands at this store.

WHY?

We Consider Your Success Paramount to Our Own

Because our success depends on the development of the communities served by us and the prosperity of their inhabitants.

We have made large investments for your convenience and comfort, in property which cannot be moved to some other locality if our business does not prosper as can yours—Therefore not only from public spiritedness but from business interests we wish to cooperate with you in anything tending to further the welfare of the community.

No proposition is too small to receive our cheerful and thorough consideration and active encouragement.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

The Cold Weather

SHOULD REMIND YOU THAT "the Good Old Summer Time" is about over, and that Jack Frost will soon be here. Time to put up that stove, clean out the furnace, ditch your Summer clothes, and prepare for Zero weather. You will need some of our REAL Coal. Coal prices are higher than in June and July, but you can still save some money, by getting your fuel now. Coal and Wood will be higher this winter than last. Our Coal must be GOOD or we couldn't have sold 20 cars in the last month.

Shoot some of our famous HIAWATHA or ROCK SPRINGS in to that furnace, start her up on high and watch her go. COAL, STOVE WOOD, CHAIN WOOD, FEED, HAY, STORAGE, DRAYAGE.
