MISSIONARY WAR BOUND

FOREST GROVE WOMAN, HERE, KNOWS CONDITIONS.

Turkish and English Viewpoints of Present War Obtained.

Mrs. R. M. Cole and daughter Nellie Cole, of Forest Grove, are visiting Dr. and Mrs. H. L. Underwood, for a few days. Mrs. Cole was for nearly 40 years a missionary under the American board in Eastern Turkey and her daughter has for several years been there being stationed at Trebizond. Throughout the war and until very recently she was in Scotland and England, through inability to return to her field. Trebizond is the fortified city which Russians captured from their Turkish foes early in the present drive.

Miss Cole is very familiar with war conditions under which the English find themselves. She and other relatives were in that country for nearly two years during the war. It is hoped that an arrangement can be made whereby La Grande people may hear of some of her experiences, which are, of course intensely interesting and Miss Cole can relate them well and concisely.

CARVES 'EM LIKE HUGHES

But St. Louis Barber Opines It Does Not Pay

St. Louis, Aug. 9.—"Hughes whiskers carved here, middle part only five cents extra."

This is the sign that appears in the window of an Olive Street barber shop. Oscar Augenmeyer, the versatile haircutter who painted it, fixed it up the other day and then sat down to wait for results. He said they came.

"Many men want Hughes whiskers because they think they are to be the coming thing," he said. "It takes me a half hour to work up a pompadour from a parted haircut. But it took me two hours to part a Vandyke beard and make it look like Hughes whiskers today. It doesn't pay and I may take the sign down."

WILL LOSE ON COD LIVER OIL

When Price Jumped To \$2.50 There Was A Rush To Speculate

St. Johns, N. E., Aug. 9.—Newfoundland dealers in cod liver oil estimate that they will lose about a million dollars this year. When Germany bought the Norwegian output last year the price of Newfoundland oil rose from 50 cents to \$2.50 a gallon.

Expecting big profits this season, a great many persons went into the business in this colony, paying high for the raw material, but when England and France obtained this year's Norwegian output, the price dropped 50 per cent.

The colony will suffer also because the catch of cod along Labrador and Northeastern Newfoundland this year has been one of the smallest on record.
