MANY INDUCEMENTS HELD OUT TO THOSE WHO WOULD ENLIST

Captain Lee M. Clark, in charge of recruiting in this city has a large list of detail in his office which he must explain to prospective recruits. Recruiting is done for national guardsmen along regular army stipulations. Here are some of them:

Applicants for first enlistment must be between the ages of 18 and 35 years, of good character and temperate habits, able-bodied free from disease, and must be able to speak, read, and write the English language.

Applicants will be required to satisfy the recruiting officer regarding age and character and should be prepared to furnish the necessary evidence.

For Infantry, Coast Artillery, and Engineers the height must be not less than 5 feet 4 inches and weight not more than one hundred and ninety (190) pounds.

For Cavalry the height must be not less than 5 feet 10 inches, and weight not to exceed one hundred and sixty-five (165) pounds.

For Field Artillery the height must be not less than 5 feet 4 inches and more than one hundred and ninety

(190) pounds. For the mountain batteries the height must be not less than 5 feet 8 inches.

A variation not exceeding a fraction of an inch above the maximum height given for Cavalry and Field Artillery is permissible if the applicant is in good health and is in other respects desirable as a recruit.

The minimum weight for all arms of the service is one hundred and twenty-eight (128) pounds, subject to variations below that standard as explained herein, but in no case will an applicant whose weight falls below one hundred and twenty (120) pounds be accepted without special authority from The Adjutant General of the Army.

Table of physical proportions for height, weight, and chest measurement:

Height Inches	Weight	Chest measurement At expiration Mobility
64	128	32 2
65	130	32 2
66	132	32 2
67	134	33 2
68	141	33 2 1/2
69	148	33 2 1/2
70	155	34 2 1/2
71	162	34 2 1/2

In calculating the proportional weight and chest measurements of an applicant for enlistment any fractional part of an inch in height equal to or greater than a half inch will be counted as a full inch; any fractional part of an inch in height less than a half inch will be disregarded.

Marked disproportion of weight over height is not a cause for rejection unless the applicant be positively obese.

Applicants must defray their own expenses while traveling to the recruiting station.

The term of enlistment is seven years; the first four years to be in the service with organizations and the last three years to be on furlough without pay or allowances and attached to the Army Reserve.

The following alternatives are open to a soldier who may be thus enlisted:

(a) At the expiration of four years' continuous service with organizations, either under a first or subsequent enlistment, he may be re-enlisted for another period of seven years, as above, in which event he will receive his final discharge from his prior enlistment; or

(b) At the expiration of three years' continuous service with organizations, either under a first or any subsequent enlistment, upon his written application he may be furloughed and transferred to the Army Reserve, in the discretion of the Secretary of War, in which event he will not be entitled to re-enlist in the service until the expiration of his term of seven years; or

(c) Subject to good conduct and physical fitness for duty, upon his written application to that effect he will have the right of remaining with the organization to which he belongs until the completion of his whole enlistment, without passing into the Reserve.

When any soldier is furloughed to the Reserve his accounts will be closed and he will be paid in full to the date such furlough becomes effective and also receive transportation in kind and subsistence as provided for in the case of discharged soldiers.

For all enlistment contracts made on and after November 1, 1912, four years will be counted as an enlistment period in computing continuous service pay as to service rendered on and after that date.

All soldiers receive from the Government, during active service, without cost (in addition to their pay), rations, clothing, bedding, medicines, and medical attendance.

The following are the rates of pay during first enlistment as fixed by law:

For continuous service the pay of enlisted men is increased as follows, viz: For those whose initial pay as set forth herein is \$36 or more an increase of \$4 a month for and during the second enlistment period, and a further increase of \$4 a month for and during each subsequent enlistment period up to and including the seventh. For those whose initial pay as set forth herein is \$18, \$21, \$24, or \$30, an increase of \$3 a month for and during the second enlistment period, and a further increase of \$3 a month for and during each subsequent enlistment period up to and including the seventh. For those whose initial pay as set forth herein is \$15 or \$16, an increase of \$3 a month for and during the second and third enlistment periods up to and including the seventh. For those whose initial pay as set forth herein is \$15 or \$16, an increase of \$3 a month for and during the second and third enlistment periods each, and a further increase of \$1 a month for and during each subsequent enlistment period up to and including the seventh.

Any private soldier, musician (other than a band musician), or trumpeter honorably discharged at the termination of his first enlistment period who reenlists within three months of the date of said discharge is entitled upon such reenlistment to an amount equal to three months' pay at the rate he was receiving at the time of his discharge.

Qualified gunner, first class, Artillery, \$3 a month additional; qualified, gunner, second class, Artillery, \$2 a month additional; qualified expert rifleman, \$5 a month additional; qualified sharpshooter, \$3 a month additional; qualified marksman, \$2 a month additional. In the Coast Artillery Corps: Casemate electrician, observer, first class, and plotter, \$9 a month additional; chief planter, chief loader, observer, second class, gun commander, gun pointer, \$7 a month additional. Mess sergeant, \$6 a month additional.

The pay of enlisted men "serving beyond the limits of the States comprising the Union and the Territories of the United States contiguous thereto (excepting Porto Rico, Hawaii, and the Canal Zone, Panama)" is increased 20 per cent, and the time of such service is counted from the date of departure from the United States to the date of return thereto. Increase accrues on additional pay for length of service, gunners, expert riflemen, casemate electricians, etc.

Whenever a soldier is honorably discharged at the expiration of his term of enlistment, or on account of disability, or when furloughed to the reserve, his travel allowances are ample to carry him to the place of enlistment.

By care and economy a soldier can save from his clothing allowance a considerable sum, payable to him on his discharge or when furloughed to the reserve.

The soldier can deposit his savings in sums of not less than \$5 with any Army paymaster, and for sums so deposited for the period of six months or longer, the soldier, on his discharge, or when furloughed to the reserve, will be paid interest at the rate of 4 per cent per annum.

In case an enlisted man on the active list dies from wounds or disease not the result of his own misconduct,

Get the Habit of
Drinking Hot Water
Before Breakfast

Says we can't look or feel right
with the system full
of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.
