## NORTH POWDER PIONEER DIES

MRS. H. O. GORMAN SUCCUMBS  
SEPT. 7TH.

Long and Useful Life Ended—Moth-  
ered 13 Children.

North Powder, Ore., Sept. 11.—Mrs. Mary Gorman, wife of H. O. Gorman passed at her home in the town of North Powder at 10 o'clock on Thursday morning on Sept. 7th. Mrs. Gorman had been a sufferer for some months and death was a welcome release from her sufferings. Mrs. Gorman had been a resident of this valley since the year of 1871. She arrived here at an early age from the state of Missouri. She and H. O. Gorman and to this union were born 13 children, 11 of whom are living, and nine of them being residents of this state. Eight are living in this vicinity. The funeral services were held at the M. E. church on Saturday afternoon and were in charge of the Odd Fellows, a lodge of which Mr. Gorman has long been an honored member. Rev. Edwards delivered the address which was full of sympathy and comfort for the sorrowing left behind. The remains were laid to rest in the city cemetery and a large number of friends followed her to her resting place. Mrs. Gorman was a noble, good woman and her place will never be filled in this community where she was well known having lived here so long. She and her husband were among the early settlers and underwent the trials of the pioneer life.

A. K. Dryborough a rancher living a few miles west of North Powder was badly hurt by a vicious bull last week. He attempted to drive the animal into a barn when it turned on him and knocked him to the ground and bruised him up. He will soon be out again.

Floyd Wiltshire's Red is out of commission. He ran it into the garage and the next day when he attempted to run it out it would not run. He will get the trouble man after it.

Jerry Lenheart has taken his family to Portland for the winter. He expects to go down himself later and miss the cold weather here.

The threshing outfits have started out but the wet weather has been hindering them—however they expect to get into full swing in a few days.

The late rains are making it fine for the fall sowing of grain and the farmers are taking full advantage of it. The grain acreage will be large in this section and everything points

to fine prospects for the coming year.

C. H. Taylor of Buhl visited a few days recently with his brother-in-law and sister Dr. and Mrs. Law. He wanted to buy a thousand head of sheep but could not find anything to suit him so returned without them. He could buy cheaper nearer home. A large number of people took in the Sells-Floto circus in Baker last

week. They report a good time and a fine circus.

Work on the new schoolhouse is being pushed as rapidly as possible. It is expected to be ready for use in a short time.

**Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

This is a medicine that every fam-

ily should be provided with. Colic and diarrhoea often comes on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.—Adv.

## The Cold Weather

SHOULD REMIND YOU THAT "the Good Old Summer Time" is about over, and that Jack Frost will soon be here. Time to put up that stove, clean out the furnace, ditch your Summer clothes, and prepare for Zero weather. You will need some of our REAL Coal. Coal prices are higher than in June and July, but you can still save some money, by getting your fuel now. Coal and Wood will be higher this winter than last. Our Coal must be GOOD or we couldn't have sold 20 cars in the last month.

Shoot some of our famous HIAWATHA or ROCK SPRINGS in to that furnace, start her up on high and watch her go. COAL, STOVE WOOD, CHAIN WOOD, FEED, HAY, STORAGE, DRAYAGE.
