## IMBLER FOLKS DINE, TALK

Meeting Nominally an Oyster Feed Develops Into Jollification Over Wilson's Re-Election—Other Imbler Notes.

Imbler, Nov. 22.—(Special)—Owing to the special meetings at Alicel, services, both league and preaching, were dismissed Sunday evening and Pres. Ruth Hurley and several Epworth leaguers attended the Alicel meetings.

Charles Witty is rapidly recovering from the effect of a painful accident which occurred a few days ago while he was cutting pole wood on Mt. Harrison. A small tree in falling struck him across the foot mashing it considerably.

William Wiggins is recovering from an attack of bronchitis.

The National Stock company will be with us Friday evening and will present the drama "Ishmael."

The warehouse north of the depot is being repaired. Part of the building collapsed some time ago when it was overloaded with grain.

Owing to the initiative of H. L. Alexander and a few others Imbler enjoyed an old fashioned community oyster supper and social evening last Friday. Though primarily a celebration in honor of the re-election of President Wilson, the affair was participated in by members of all parties and everyone present enjoyed a pleasant evening. The supper was served in McGoldrick hall where about two hundred were served oysters and coffee. Afterwards the people assembled in the movie hall and listened to an extemporaneous talk by Senator-elect Pierce. The speaker was introduced by James Woodell. Mr. Pierce's speech was mainly on the two Wilson administrations, the one just closing and the one to begin March 4. A large percentage of the audience was composed of ladies who appeared to comprehend political argument as intelligently as they do serving oysters.

Several new hats are in evidence and their owners are wearing a smile which has a "I-told-you-so" meaning, especially when the recent election is mentioned.

Since the cold snap came skating on the McGoldrick pond is excellent and each night sees a jolly crowd enjoying winter's best sport.

December's meeting of the Imbler Social aid will be held at McGoldrick hall Thursday, the 7th, and in addition to the regular routine work, a lunch and literary program will be enjoyed. Registered at the Keown hotel: Leonard Adams, Verne Hug, Lola Mayfield and Frances Hug, of Elgin.

Registered at the Doering hotel: L. F. Evans, Maconda, Ore.; P. S. Weibuller, Crane, Ore.

Surveyor Curtis was operating in this part of the county Tuesday.

The Harney county real estate dealer who secured several pieces of land last year, when William Henry and several relatives trade d their Union county farms and orchards for Harney county farms, is in Imbler trying to sell or trade his property which is all situated near this town.

The Picturesque Japanese At Home Yokohama is a typical treaty port, with a few fine buildings, a Bund, and foreigners. The foreign concession is made up of two parts—the Bluff where the foreigners live, and the Settlement, where they work. Bluffs characterized the relations between the self-consciously superior European and the shrewd Oriental on more than one occasion. But the old bluffs are not working as well as formerly, few concessions are being made, and those are made to the Orientals, and settlements are scarce. There are a score of open questions between the superior foreigner and the down-trodden native now.—The Christian Herald.

**Wasted Talents**  
Almost every new invention opens up a field for talent theretofore wasted. In the long ago before the motion picture how many Charley Chaplins, as funny in their walk as the one we know today, must have gone through life without feeling the breath of fame. How many actors, from the day of Euripides down, only fairly successful in the "legitimate," needed but the greater freedom of the unspoken drama to make them great. Before the linotype made possible the modern magazine and newspaper how many aspiring authors who would have been able to write the up-to-date short story correctly to the last detail, flickered out obscurely, leaving nothing but a trial of unreadable blank verse tragedies. Before the phonograph how curtailed was the field within which good music was heard and appreciated, and how wide is that field now, and how great its searching of the world for talent. And have there not been great pitchers and base-runners, from that bright day when Odysseus saw Nausicaa and her maidens play ball, down to the comparatively recent time when modern game of baseball was invented; yet all forgotten because they had no chance to prove their prowess?—San Francisco Bulletin.

What's the Use?  
I knew a man who thought he had unmasked the folly of existence and its woe. "Is life worth living?" constantly he asked, And always answered his own question, "No!" He talked of suicide, and often said That they were right who fought and ran away; The only happy people are the dead, Or those who haven't yet been born, he'd say.

He kicked about the weather, hot or cold— Grouched if 'twas dry, and wept if it was wet. He hated rich men for their stores of gold, And poor men for their poverty and debt. Cities he loathed for their eternal din— The country bored him with its quietness; He cursed the persecutor for his sin, But mocked the martyr in his meek distress.

"Life's not worth living!" was his constant cry; He'd tell his tale to Jones and Brown and Smith, Till all his friends began to wonder why He didn't die and get it over with. Then all at once he changed his mind. (They say He fell in love.) He took up life with zest;

There is more Catarrah in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrah to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrah Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

**CITIZENS ADDRESS STUDENTS**  
An interesting series of morning addresses to students of the high school have been outlined by Superintendent Linden McCullough. Rev. G. L. Clark of the Presbyterian pulpit spoke a week ago and his audience enjoyed all that he had to say immensely.

Yesterday morning George T. Cochran, attorney and state water commissioner, spoke on the difference between private and public expenditures, touching upon the reasons for budgets in county and city affairs.
