

Exhausted After the Day's Toil

PAULINE FREDERICK, FAMOUS PLAYERS STAR IN PARAMOUNT PICTURES.

"I'd just love to be in motion pictures." That has been the cry and ambition of millions of people, believing in their hearts that it is the easiest position they could possibly aim for. But they are wrong. It's work, and hard work, from early in the morning until late at night. Work that so fatigues one that there is little wonderment that Pauline Frederick would appear to be exhausted after the day's toil. On this occasion she began long before seven o'clock and was in the studio until three o'clock the following morning.

The Best Coffee on Earth

Costs You Less Than 1/4c More per Cup Than the Poorest Coffee

Would you spoil a good dinner to save one-quarter of a cent? If it has been your rule never to buy coffee of **Barrington Hall** quality at 45c a pound, aren't you astonished to know how little you are saving?

The quality of **Barrington Hall** justifies paying a little more per pound. But along with the extra value goes the **Bakerized Process**, which results in purer coffee and enables you to make 15 to 20 more cups per pound than you get from cheaper coffee.

No Dust, No Chaff, ground into even particles, therefore no waste
