INSPECT IMPORTED FOOD AND DRUGS

Many Shipments of Adulterated Products Denied Entry Into the United States.

Washington, D. C., Dec. 27.—(Special)—That increased vigilance on the part of officials in charge of the enforcement of the Food and Drugs Act is required by conditions brought about by the European war to prevent shipment into the United States of adulterated and misbranded foods and drugs is shown by the report of the chief of the bureau of chemistry, just published. While the volume of imported foods and drugs has decreased since the outbreak of the war, the variety of grades has increased. Likewise the number of shipments in proportion to the quantity is larger, for it is now necessary for importers to get from many sources the supplies which previously could be obtained from one place. One importer may bring in twenty small shipments all obtained in different places and of varying degrees of purity where previously he would have brought in the same quantity in one shipment of uniform quality. This makes it necessary for the inspectors to look out for and examine twenty shipments instead of one.

The high prices prevailing for certain products which can be obtained only from abroad, particularly spices and crude drugs, has increased the temptation to adulterate. According to the chief chemist's report shipments of coriander, fennel, celery, anise, cumin, Chinese and Indian mustard, senna leaves, cinchona, ipecac and other products were found to be adulterated and were denied entry into this country. Many shipments of medicines were found to be misbranded, the labels containing false or fraudulent claims as to the curative powers, and such shipments were detained until the misbranding was corrected. Among other articles of food found to be in violation of the law may be mentioned decomposed tomato pastes and products, spoiled sardines, wormy olives, olive oil, pepper, macaroni, and beverages. Special attention was given to milk imported from Canada into the New England states. There was a marked improvement in the wholesomeness of this milk during the year owing to the exclusion of shipments of contaminated milk produced under insanitary conditions.

Wants Bounty Raised.

Salem, Dec. 29.—(Special)—Clay C. Clark, representative from Gilliam, Sherman and Wheeler counties, expects to introduce a bill in the state legislature during its next session raising the bounty on female coyotes to the rate of \$10 each. He says that such a bounty would make it worth while for hunters to purchase dogs, and eventually the animals would be exterminated. Representative Clark says coyotes are becoming very numerous in eastern Oregon, and the sheep industry of that section is threatened with disaster unless some drastic action is taken in the near future.

ACT QUICKLY.

Delay Has Been Dangerous in La Grande.

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger Doan's Kidney Pills are most effective. Plenty of La Grande evidence of their worth.

E. S. Brasel, 2203 N. Birch St., La Grande, says: "I went around for several months feeling as though my back was broken. I couldn't straighten up, as my back was so weak and sore. At times, it was all I could do to keep going. When I got down in a stooping position, I could hardly straighten up. I felt played out all the time. My kidneys were in a very bad way at times and the action was very irregular. The first few doses of Doan's Kidney Pills put my kidneys in working order and relieved that awful misery in my back. One box stopped the pains in my back and made me feel like a different person. Since then, when I have noticed any signs of kidney disorder, I have taken Doan's Kidney Pills for a few days and they have never failed to overcome the trouble."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that
