Lay Plans For C.E. Convention Here

Committeemen Expect 175 Visitors—Prominent State and National Workers Will Conduct Meetings.

Preparations are being made by the state committee and the local committee of the Christian Endeavor society for the convention to be held here February 16, 17 and 18. This convention will be attended by a large number of young people from Eastern Oregon and Eastern Washington, the committee in charge expects at least 175. The convention will bring to La Grande some of the best workers among young people to be found in the country. The object of the general committee in charge is to have two state conventions, one at Salem and the other in La Grande. In this way it is hoped to give all the young people of the state a chance to attend at least one convention with less expense and to permit every one to hear Daniel L. Poling, president of the Associate World's Christian Endeavor Union. The fact Mr. Poling is coming will bring many delegates to the city, Mr. Poling is making a 7000-mile journey to attend these conventions and is unquestionably the biggest man in the Christian Endeavor Union outside of Dr. Francis E. Clark, the founder of the union.

While the committee cannot at this time name all that will be on the program, yet they are able to announce that in addition to Mr. Poling, Miss Dyer, Rev. G. L. Clark, State President Carrick, Convention Chairman Huntington, Intermediate Superintendent Miss Torgenson, and a real bundle of consecrated enthusiasm for expert work, Miss Helen Orr, will also be here. The inspirational addresses in the school of methods, and the big banquet will be outstanding features of the convention. The program is as follows:

Friday—9-11, Entertainment by convention committee (local); 11-12, registration and social hour; 1:30-2:15 devotional led by Miss Dyer; 2:15-4, conferences, Dan Poling; 4-5, "Let's Go" program; 7:45-8:45, "Glad-You-Came" program; 8:45-10, keynote address, Daniel A. Poling; 10-10:30, evening watch, Miss Dyer. Saturday—8-11, expert examinations; 8:30-9:15, devotion, Miss Dyer; 9:15-10:45, conferences; 10:45-11:30, question box, Dan Poling; 11:30-12:30, business session; 1:45-2:30, devotional, Miss Dyer; 2:30-4, sectional conferences; 4-5, high school rally, addressed by Rev. Clark, Miss Torgenson; 6-7:45, banquet; 8-8:45, presentation of budget; 8:45-9:30, address, Daniel A. Poling. Sunday—6:30-7:30, quiet hour, Miss Dyer; 9:45-11, convention Sunday school; 11-12, church services; 2:30-2:45, song service; 2:45-4:30, rally, addressed by Mr. Poling, Miss Dyer; 6:15-7:15, pre-prayer service, Miss Dyer; 6:15-7:15, union Young Peoples' meeting, W. M. Huntington; 7:15-8:15, closing service, Miss Dyer, Mr. Poling; 8:15-9:15, evening watch, L. R. Carrick, Mr. Poling.

BARRETT ROAD BILL HAS A GOOD CHANCE OF PASSING SENATE

Salem, Ore., Jan. 15.—The measure introduced in the senate by C. A. Barrett of Umatilla and Union counties will bring to a head the various plans which have been in the air for the creation of a state highway from the California to the Idaho line. It is un-

WARNERS' "Rust Proof" CORSETS

A BIT OF HISTORY OF AMERICA'S GREATEST CORSET FACTORY.

Forty-three years ago The Warner Bros. Company began the manufacture of Warner's Corsets in a small wooden shanty. Today the factories consist of thirty-eight buildings covering four city blocks—employing more than 3200 employees, with an output of thirty to thirty-five corsets per minute. One progressive store in practically every city in the United States carries in stock the famous Warner's Corset.

This store is fortunate in having the exclusive agency in La Grande for Warner's (Rust Proof) Corsets.

Warner's Rust-Proof Corsets	Warner's Brassieres

derstood that there will be some opposition to the Barrett measure but it is believed that the weight of argument lies with it.

The measure, as introduced, creates what shall be known as the California and Old Oregon Trail highway. To the south it will go down the valley, striking the California line at its intersection with the border of Jackson county. The route, it is understood, will meet with no opposition.

It is the eastern end of the highway that will be the target for what opposition may be directed to the bill. Mr. Barrett would have the road traverse the Columbia river highway to Hood River following eastward from there through Pendleton, La Grande, Baker and Ontario to Vale.

It is generally understood that there is another route which will be presented in some form and which seems to be principally because it is more economical than the route suggested by the Barrett bill. This argument, however, will not appeal to the members of the legislature from Eastern Oregon in the majority, it is believed.

Their attitude, it is understood, is that the road should serve the greatest number of people and they do not fancy a road which traverses a considerable amount of territory which is the most thinly populated of any part of the state.

It is not known yet what will be the attitude of the state engineer's office of the members of the legislature toward the means by which funds will be secured for these roads. Senator Barrett's bill provides that 75 per cent of all the moneys at the disposal of the state highway commission shall be used, during the next five years, for the construction of the highway. What

amount this sum would be is still difficult to determine as there are several bills to come before this session of the legislature, designed to increase the receipts of the commission as well as make available the funds which have been offered by the United States government.

Whatever other arguments may be called up against the measure, it can never be said that it favors Eastern Oregon more than another section of the state, for the two branches of the road are about equal in length. The section to the California line is about 350 miles and the Eastern Oregon branch is 473 miles.

No action of any kind has yet been taken on the measure.

HIGH COST OF LIVING

(Continued From Page C)

Anticipating expense, and of the cotton belt. They were de- sents which makes a south worth while. They were de- rived of one great Where they raised an average of proper fert- ction to the acre with under the present conditions to culti- vate thr- acres to obtain at enormous production the same results

now. The same conditions prevail in two-thirds of the United States in other crops including corn and wheat. I know it is of little interest to most of westerners who live on the land that doesn't need corn and farm crops, but such favorable conditions found all over the world as well as in Uncle Sam's domain. Experience a short serious condition of crops is an opportunity of \$100,000,000 of potash and "kali" our work many each year to build up

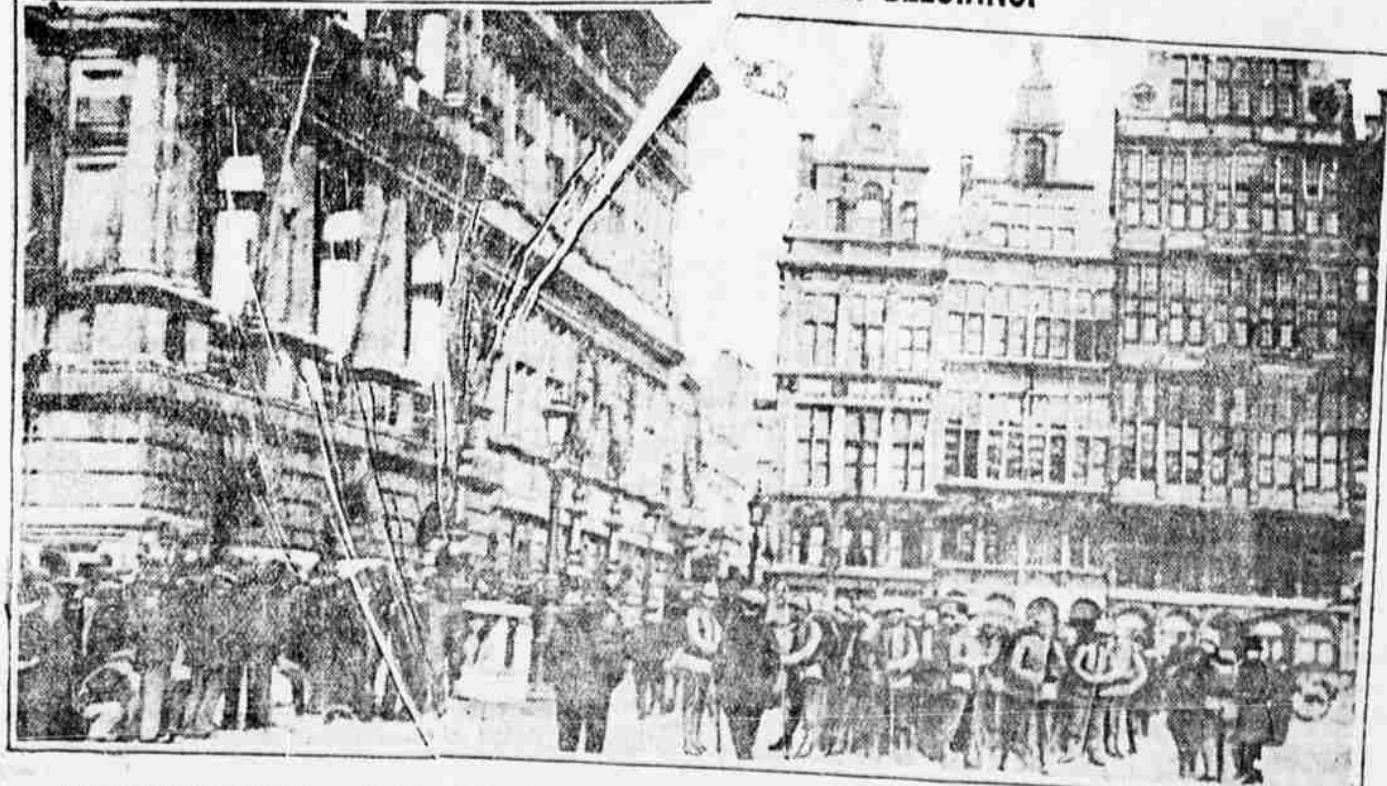

We know that the Germans are able to produce more bushels of wheat per acre from their old soil than we are on the virgin soil of America; because they are about 125 years in advance of us in the use of chemical fertilizers. This blockade of neutrals is causing untold misery and privation in millions of American homes. Those who strike at their enemies are starving their friends. It is the irony of fate, but such is war.

To be brief: I must say that Germany feeds the world, and we will be short "cropped" until we can again resume our relations with a friendly world of foreign commercial intercourse. Possibly Mr. Wilson has taken cognizance of this very important deficit in our cereal production and is trying to avert a calamity by offering the "olive branch of peace"

It was my intention to ask the question "Who feeds and clothes the world?" That is what I had in mind and I believe it is the thought conveyed.

K. DYAL.

FIRST PICTURE OF DEPORTATION OF BELGIANS!

This picture is the first to reach this country showing Belgians being gathered in the public square at Antwerp, Belgium, preparatory to deportation into Germany, where they are put to work in German fields and factories. The Belgians, at left, are shown under German military guard. It is this deportation against which a storm of protest has arisen.
