Invite Spanish War Veterans

The committee in charge of the dinner to be given tomorrow at 12 by the G. A. R. and W. R. C. in the K. of P. hall invite all Spanish-American war veterans to be present.

LOCAL BREVITIES.

The man who lost those 1569 quarts on the steamer F. A. Kilburn must be real sore," said Bob Bannockburn, a traveling salesman at a local hotel today. "It illustrates how people overreach themselves. Now if he had brought in only nine quarts in a suitcase he would have had them and avoided a lot of trouble and expense.

Miss Newlin Will Dance Tonight.

Miss Leona Newlin has kindly consented to give an exhibition of specialty dances tonight at the Charity Ball. Miss Newlin has just returned from Portland where she has been studying under Miss Laidlaw.

Notice.

A light Jersey cow about six years old came to my place about forty days ago. She is branded a quarter circle R on the right hip, a crop and a swallow fork in the right ear and a swallow fork in the left ear. Owner can have same by proving claims and paying expenses.

L. B. CARTER, Cove, Oregon. 1-11-14tpd

Auto-Intoxication.

"Physicians are giving a great deal of attention to the subject of auto-intoxication, or intestinal poisoning," says an exchange. Courts have already considered it quite fully.

The ladies of the Neighborhood club deserve a vote of thanks for their cooperation in making the big Cattle & Horsemen's convention a success.

Most Eminent Medical Authorities Endorse It.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon— all distinguished authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N.Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which he finds is thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50-cent box of "Anuric" put up by Dr. Pierce. Dr. Pierce's Favorite Prescription for weak women and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can get a sample of any one of these remedies by writing Dr. Pierce.

Doctor Pierce's Pellets are unequalled as a Liver Pill. One tiny, Sugar-coated Pellet a Dose. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

THE GOLDEN RULE CO.

Quality the same—Prices less

CAN OBTAIN FARMS (Continued From Page One)

The amount borrowed under the farm loan act could be paid to the original owner of the land and a second mortgage executed for the difference.

The original owner would thus get a satisfactory payment down, and if he had confidence in the purchaser, he would probably be willing to accept a second mortgage for the balance, divided into ten annual payments.

Here is the way it would figure out: The first mortgage of \$2500 given under the farm loan act would draw, let us say 5-1-2 per cent interest and would be paid off on the installment plan through a period of forty years by making annual payments of \$155.95.

Now let us say that the second mortgage would draw 6 per cent and could be arranged so as to be retired in ten years. The interest on this \$2500 mortgage at 6 per cent would be \$150 the first year and one-tenth of the \$2500 would \$250.

Adding the interest and the one-time annual payment would mean a payment of \$400 on the second mortgage the first year. The second year payment would be \$385 and the following payments through the ten years to retire the second mortgage, both principal and interest, would be \$370, \$355, \$340, \$325, \$310, \$295, \$280, and \$265.

On top of all these annual payments would be the \$155.95 interest and amortization payments on the first mortgage to the federal land bank so that the total payments, interest and principal, on the two mortgages would begin at \$555.95 and dwindle down to \$420.95 the tenth year and after that only \$155.95 each year.

If the terms of the second mortgage could be arranged for longer than ten years the required annual payments would be correspondingly reduced.

These payments are no greater than the average tenant pays for rent. The first year payment on both of these mortgages would amount to approximately \$5.50 an acre. These would gradually reduce until the tenth year he would be paying \$4.20 an acre and

each year after that he would be paying only \$1.55 per acre per year. Instead of being paid as rental this money is applied on the purchase price of the land.

The interest rates quoted in this instance are suggestions only and are not to be taken as an official statement of what rates will prevail under the farm loan act.

Editor's Note:—Tomorrow's installment will have to do with the social and economic effect of the farm loan act.

Mineral Hog Tonic.

The hogs will make better and more economical gains for the feed consumed if they are supplied with a mineral tonic, and the rooting habit will be reduced where they have access to the tonic, says the Farm and Fireside. The mixture should contain: Air slaked lime, two pounds; common salt, two pounds; epsom salts, one pound; copperas, two pounds; slaked coal, 100 pounds. The copperas should be dissolved in boiling water before mixing, and all the constituents except the copperas should be mixed at one time. Then sprinkle the copperas solution over the mixture to insure equal distribution of the copperas. The effect of the copperas in the mixture keeps the worms from infesting the swine that have this mixture constantly before them.
