Money To Loan

"Money to loan farm land, Lowest rates of interest. Prompt service, Loan our own money and do not sell our mortgages or notes."

Let me figure with you before you place a loan, \$8000, private money at 6 per cent.

I will make your loan so you will know what rate you are paying, and not make you think you are getting 5 or 6 per cent money when 10 to 15 per cent.

WATTS WATT TALK NO. 3

The other day we told you about watts and their relation to your light, power and heat bills. We told you how you could estimate how many watt-hours a lamp or other device would use in any given period. The next step is to figure how much it would cost you to use that device.

If you buy a dozen or a hundred of an article you can usually get a better price than by buying one. Our rates are based on the same principle. We give below our rates for light, heat and power in Baker and La Grande and suggest you cut them out for future reference.

In later Talks we will tell you, why we are able to give cheaper rates for heat and power than for lighting.

SCHEDULE "A"
