

The Proof is the Goodness of DODGE BROTHERS CARS

Is Always Reflected by Their Owners

Last Week We Published a Page of Letters From DODGE BROTHERS Owners. Here is Another Page. Read What People You Know Think of DODGE BROTHERS CARS.

Mr. L. C. Smith,
La Grande, Ore.

Dear Sir:
Complying with your request will say that I have now driven my DODGE BROTHER'S CAR over seventeen thousand miles in Oregon, Washington and British Columbia. My repairs have been very few and the cost of upkeep has been extremely low.

As you know I had owned four cars, two four and two six-cylinder cars, all which cost much more than a Dodge, but none of them ever gave me the satisfaction I have had from the Dodge.

I know of no other car at any price for which I would trade a DODGE BROTHER'S CAR.

Assuring you that every place I have met a DODGE BROTHER'S CAR owner I have always found a satisfied owner, I beg to remain,

Yours truly,
(Signed) H. C. BEESON.

Union, Oregon, Dec. 19, 1916.

Smith's Garage,
La Grande, Ore.

Gentlemen:

I am pleased to state that since I have bought a DODGE BROTHER'S CAR of your agency, I have had the very best of service, from you, although the car that I purchased from you, has not needed very much attention for it is a car that is strongly and well built and there is no intricate parts to get out of order requiring the services of an expert repair man.

At the present time I have no suggestions to make in regards to the service which you give as I cannot see whereby you could better it.

Thanking you for past favors received, I beg to remain
Very truly yours,
(Signed) SYLVESTER HEMPE.

La Grande, Ore, December 20, '16.

L. C. Smith's Garage,
La Grande, Ore.

Dear Sir and Friends:

I have been running a DODGE BROTHER'S CAR for the last eight months and am sure well pleased with it. I have not had any trouble with it. The electric starter has not failed to work once since I owned the car.

I have run the car about 4500 miles and over some awful rough roads and as for hill climbing, they can't be beat and the way Smith's Garage treated me is excellent. They are always at your service and a person can't help appreciate what they do for him.

I have done business with them for five years and I find that every day is the same with them.

Yours truly,
(Signed) ED. MEYERSICK.

La Grande, Oregon, December 18, 1916.

Mr. L. C. Smith,
La Grande, Ore.

Dear Sir:

Last spring when I decided to buy a car I had practically made up my mind to buy a DODGE CAR before I let it be known that I was in the market for a car. When I did I had all kinds of inducements to buy. Several other cars some of a higher price than a DODGE, which I could have had at the same price as a DODGE. One agent would throw off \$50.00 on the price, give me an extra tire complete, chains, license and three months free storage. But for all that I would not see anything but a DODGE and I would not get a cent off on your regular price. But I am not sorry that I did so as I believe I got my money's worth in doing so. You told me I would get about 17 miles to the gallon of gas. In figuring it up I have done better than 19.

In buying a DODGE I knew it was almost a certainty that you would remain here in business. You told me that you would look after the car 90 days from the time it left the factory. You have done better than that. Some little

Burnt River, Jan. 20, 1917.

things that have gone wrong, much of it was my fault as the car's, have been repaired with a smile. My repair bill to date has been nothing.

A person could not ask for better service than is received at your garage, no matter what time of day or night, or how busy, there is always some one to attend to you and help you out of your trouble. So take it as a whole, I am very much pleased with the DODGE as she will take you any place there is a road and bring you back again.

Thanking you for past favors, I remain,
Yours respectfully,
(Signed) T. H. WILLIAMS.

L. C. Smith,
La Grande, Ore.

Dear Sir:

Regarding DODGE BROTHER'S CAR which I bought from you, I am glad to say the car has given me the best of service, has been much less expensive than I expected, gasoline and oil consumption is very small.

I do not think that there is any car within \$300.00 of the DODGE that can compete with it. My cost has only been one radiator cap; one lock for glove box (on account of losing key).

Your service work has been much better than I expected to get when I bought the car. Should I take a notion to buy or exchange for a new car, I am sure it would be a new DODGE BROTHER'S CAR.

Hoping to remain your customer, I beg to remain
Respectfully,
(Signed) OSCAR POARCH.
La Grande, Oregon, December 23, 1916.

North Powder, Oregon, December 20, 1916.

L. C. Smith,
La Grande, Ore.

Dear Sir:

In replying to your letter in regard to my DODGE CAR, will say with out a doubt of contradiction that my car has given me satisfaction all around. It has never given me a minutes trouble and have never taken a spark plug out of it. The car is now averaging around 18 miles per gallon and has made over 4200 miles. The electric starter has never given me any trouble and the power of the engine is way beyond my expectations at the time I purchased.

The service at your garage is good and I never came in without getting what I wanted.

Respectfully,
(Signed) L. C. GROUT.
La Grande, Ore., December 18, 1916.

L. C. Smith,
La Grande, Ore.

Dear Sir:

In regard to the DODGE CAR which I bought from you last spring, I wish to say that it has more than filled my expectations.

After having tried the car out on all kinds of mountain roads, I find it's pulling power excellent. I have taken various long trips through the summer and I had no trouble whatever with the car.

It is with pleasure that I say these things about the DODGE BROTHER'S CAR, I am,

Yours truly,
(Signed) W. P. MOHR.
Flora, Oregon, Dec. 23, 1916.

L. C. Smith,
La Grande, Ore.

Dear Sir:

In regard to the DODGE BROTHER'S CAR I bought from you last spring, will say it has given perfect satisfaction. It has run perfect in ever respect. We have given it a pretty hard deal last summer and have not been out anything for repairs yet.

It seems to be made of the very best materials throughout. We have loaded it beyond its rated capacity and made long, hard pulls perfectly easy.

A DODGE BROTHER'S motor will not heat if prop-

erly worked out. We have about four miles pull from home which is practically all low gear work and the motor will not heat.

I will close for this time, hoping you succeed, I remain,
Yours truly,
(Signed) WM. MURRELL.

Medical Springs, Ore., December 28, 1916.

Smith's Garage,
La Grande, Ore.

Dear Sirs:

Yours of the 10th at hand. Pardon me please for delay in answering but Santa Claus is to blame.

Mr. P. J. Powers is the chauffeur and a capable judge. He is delighted with the movements of the DODGE CAR you sold us except it has vibration tendency after running awhile in intermediate or low gear, otherwise it is all or even more than we expected. We are certainly a friend of the DODGE CAR. It has not been a cent's cost to us in the 2000 miles it has run.

We will drop in to your garage some day when we are in La Grande and let you take a look at it. It is as bright and pretty today as the day we bought it. It is well housed and has good care and it is a comfort and a pleasure to have it.

Very truly yours,
(Signed) DUNHAM WRIGHT.

Cove, Oregon, December 31, 1916.

Smith's Garage,
La Grande, Ore.

Dear Sirs:

We wish to take the liberty of expressing to you our complete satisfaction with the 1915 DODGE CAR which we purchased from you in July, 1915.

In the year and half that we have used it, it has proven itself equal to every test that is reasonable even for a much higher-priced car.

In the four thousand miles we have driven it we have used only the tires which came with the car and they are still in good condition. Furthermore, the upkeep and repair on the car has been absolutely nothing because there has been no breakage, no engine or brake trouble, and there is no sign of wear.

While in appearance the DODGE is not a large car, it is built after plans that are so drawn as to take advantage of every inch of available space and as a result of the superior workmanship it is the most roomy and comfortable five-passenger car that up to date designers can produce. With these advantages is combined that one other big feature, viz.—a light compact but serviceable and powerful engine which gives the DODGE the name it justly deserves—one of the best pullers on the market.

While extending our gratification with the DODGE, may we offer to you our sincere thanks for the prompt, willing, efficient and reasonable service we have always received at your garage.

Sincerely,
(Signed) MRS. M. J. MITCHELL,
MRS. M. KNIGHT.

L. C. Smith,
La Grande, Ore.

Dear Sir:

In answer to your letter of the 10th requesting a statement from me in regards to the DODGE BROTHER'S CAR, will state that I have run the car 12,000 miles with very little trouble. I had four fires from the generator which was not and never was right until the DODGE service man repaired it. It has been all O. K. I have had the car taken apart and find the bearings and gears in perfect shape. I think that the car is all that I could wish and when I come to the garage I find the boys on the floor and in the shop are always ready and willing to give me the best of service. I do not wish for any better anywhere.

Yours very truly,
(Signed) J. L. WOODSELL.
