THINK DEAD BOY IS NOW IDENTIFIED

Coroner Brown of Umatilla county thinks the parts of the body of the boy picked up along the O.W.R. & N. company's right-of-way last Monday morning were those of "Philip Milen" or "Philip Millen." These names were on letters found in the personal effects of the dead man. "Oscar Millen" was signed to a post card found in the pockets. The card was sent from Salem, Ore. A brakeman on No. 5 yesterday morning talked to a young man who answers fairly well to the obtainable description of the dead man. The young man told the brakeman he was on his way to Silverton, Oregon. This fits in with the description "J. E. A., Silverton, Ore. Born March 88, 1898. R. F. D. No. 6," found on a fancy riding saddle with a portion of the body.

ARC A DE

BESSIE LOVE SEEN AS BLIND FLOWER GIRL

Bessie Love will be seen at the Arcade theater today and tomorrow in her new play, "Nina, the Flower Girl." In this drama, written especially for her by Mary H. O'Connor, editor of the Triangle-Fine Arts scenario department, Miss Love has the part of a blind girl, who makes artificial flowers to eke out the scanty income of her grandmother, who cares for her. As a chum and protector she has Jimmie, crippled newsboy. The grandmother's death leaves Jimmie the girl's sole protector until people of wealth take her under their care and succeed in having her sight restored. Her first desire is to see Jimmie. Through the skill of other doctors he is presented to her straight and strong and she never knows that he was otherwise. Miss Love is said to give one of the most appealing performances of her screen career. The part of Jimmie is taken by Elmer Clifton, remembered for his recent appearance with Dorothy Gish in "The Little School Ma'am."

Snow Covers Morrow County. Heppner, Ore., Feb. 28.—(Special)—Morrow county is covered with snow from eight inches to a foot deep. Farmers are rejoicing.

Ridicule is a deadly weapon if used to a good advantage.

Farmer Kills Rabid Dog.

The first case of rabies in this vicinity was discovered here the first of the week by Perry Blanchard, a rancher living north of Union, says the Oregon Scout. A dog owned by Mr. Blanchard was acting strangely and bit another dog and two hogs. Mr. Blanchard became suspicious at the strange actions of the animal and killed it. He sent the head to the State Health Board at Portland and received a letter this week to the effect that negri bodies were found in the brain of the dog, proving conclusively that the animal was afflicted with rabies. Mr. Blanchard killed the animals bitten by the rabid dog at once, taking no chances with the dreaded affliction. One of the hogs bitten by the mad dog was a fine registered Poland China of the improved type and was highly prized by Mr. Blanchard.

SHERRY'S

SHERRY'S

When a man, once divorced and married again, returns to his first wife—heartaches and disappointments ensue as logically as night succeeds days. But to restore the husband to the wife, upon the eyes of the divorcee to the downright inhumanity of her conduct, and to mak the man see how despicably he has acted is not always an easy matter. Complications like these arise in Mrs. Wilson Woodrow's

SHERRY'S

LAST TIME TODAY

story, "The Piper's Price," prepared for the screen by Joseph De Grasse and to be shown for the last time tonight at the Sherry theater with talented and beautiful Dorothy Phillips playing the intensely emotional role of the betrayed and deserted wife.

Maud George enacts the part of the divorcee, William Stowell is the erring husband and Lon Chaney, for once in his screen career, appears as the hero. It is Chaney who finds the way to restore the promise of happiness to the heart-broken wife, by marrying the divorcee and putting her for good and all out of mischief.

About Constipation.

Certain articles of diet tend to check movement of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.

WATTS WATT TALK NO. 6

In one of our Talks we mentioned a device with which you could ROAST, BAKE, FRY, BOIL, BROIL, STEW, STEAM and TOAST by electricity, without investing in a big range. This is truly a wonderful thing for a family of two to four persons. It is suitable too, for larger families when it is desirable to have a quick and convenient method of cooking in addition to the regular coal, wood or gas range. It is made in many styles both in the Hotpoint Ovenette and the Universal Portable Range. We carry them in sizes ranging from the one you can operate from a lamp socket and costing \$8.00 to the one requiring a special heating circuit and costing \$21.50.

The ones operating from a lamp socket take a maximum of six cents per hour of electricity. Those requiring a special heating circuit take a maximum of three and six tenths cents per hour. Almost everyone acknowledges that cooking by electricity is the most desirable way imaginable and these devices make it within the reach of everyone to do so.

The next time you are down town, drop in and look at one of them.
