

The Result of 22 Years' Successful Experience in Building Motor Cars

America's Greatest "LIGHT SIX" \$1585

The Owner of a Haynes

is the man who has spent considerable time and study in comparing various makes of automobiles.

He is the man who likes to know exactly what he is getting for his money, and who intends to get his money's worth. In short, he is a typical American Business Man who considers the purchase of a car an actual investment, and not only is such a man interested in the specifications, finish and equipment, but he is shrewd enough to go even further:

"Is the car economical and enduring?" "Has the company had experience in building motor cars?" "Is the organization stable?" "What may I expect in the way of service?" "Will I be able to obtain repair parts next year and the year after?"—are questions which naturally arise in his mind.

The HAYNES America's Greatest "Light Six"

has more than met the standard of this man. He has found that this car travels from 22 to 25 miles to the gallon of gasoline under normal conditions and is correspondingly economical in oil, tires and general upkeep.

He has found that America's Greatest "Light Six" represents the height of refinement in motor car design—that the Haynes company has 22 years' experience in the manufacture of motor cars—that Haynes owners have always received the most efficient and satisfactory service—and that today the Haynes company is still furnishing repair parts for cars built as long ago as 1899.

Haynes Quality, Haynes Experience, Haynes Sincerity, Haynes Service—all are valuable assets to the owner of a Haynes car. It will be a pleasure to give you a demonstration in the latest Haynes achievement, America's Greatest "Light Six".

Two Models--Three Body Styles

LIGHT SIX		LIGHT TWELVE

Velie

BILTWEEL SIX \$1185

VELIE BILTWEEL SIX has made an astonishing record in the last year. It created a demand that tripled our output—tested the capacity of A Mile of Velie Factory—made a name for style, finish and performance that you now hear wherever automobiles are discussed.

Four more inches of body length give more room, comfort, more luxury—with a new note of distinctive charm in the lines of the 1917 design.

Timken Axles Front and Rear are but an evidence of the quality and superior specifications found throughout the new car. Recognized as the standard of excellence.

Money Cannot Buy Better

Many subtleties of engineering refinement give more power, silence, suppleness—securing every ounce of energy of every drop of fuel.

All this and much more can now be obtained in the new Velie at the low price of \$1085.

Back of this car is half a century of manufacturing experience—the reputation of one of the most substantial organizations in America.

1917
