

DELCO-LIGHT

ELECTRICITY FOR EVERY FARM

DELCO-LIGHT MAKES ELECTRICITY UNIVERSAL

For the first time electric light and power are available to anyone—anywhere. Heretofore, the benefits of electricity have been confined to those who live in the larger towns and cities. Now Delco-Light makes electric current universally available.

Delco-Light is today furnishing thousands of farm-houses with brilliant, convenient, safe and economical light. It is furnishing power to operate pumps, washing machines, churns, cream separators, milking machines, vacuum cleaners, etc. It is lighting country churches, stores and public halls. It is furnishing light and power to summer homes and camps, to houseboats and yachts, etc.

It is lighting rural railway stations and construction camps. It is lighting the camps of United States troops on the Mexican border and it is disclosing heretofore undreamed-of beauties in the depths of Mammoth Cave, Kentucky. Altogether, over 15,000 Delco-Light plants are in operation, and Delco-Light offices are to be found in almost every part of the world.

Delco-Light is a complete electric plant—the engine and dynamo in one compact unit combined with a set of specially built and wonderfully efficient batteries for the storing of current. The plant is so simple a child can run it, and so economical that it actually pays for itself in time and labor saved. It operates on either kerosene, gasoline or natural gas.

SIMMS
(Continued From Page 3.)
Not willing to take up too much of the lieutenant's time I pretended I had seen as much as I cared to. The journey to the earth seemed slow. After a time the faint outlines of fields, houses, trees and haystacks began to loom up presently, with a fairly hard bump, the basket struck the earth bounding up again some 200 feet. After a few of these bounds, the officer, calculating the right moment as best he could in the dark, pulled the rip-cord to let out the gas.
The rip-cord broke at the point where it entered the balloon.
Suddenly the balloon came to a halt just above the ground. There were voices beneath. There was a moment of suspense then the Major heard in good English: "Lively there! Get onto those ropes you blighters." A squad of British Tommies soon had the sausage anchored. It had been blown back over the lines into a wide salient occupied by the English.
The official report, of course, merely narrates the plain facts in a plain way, just as the captain of a fire company would tell how the blaze his men had put out started. The adventure, this game of tag with Death, was all part of the day's work. So it had to go down in the records quite as if it had been a requisition paper to the commissary department for another crate of pork-and-beans.
