

The Prescription and the Patient

When your physician writes a prescription for you or some member of your family, he has his patient's welfare in mind. The value of the medicine which is to be given does not depend upon the price, but upon the good which it will accomplish.

Your physician's wishes and the patient's welfare will both be conserved if we do the compounding. Pure ingredients and scientific methods insure right results.

We guarantee purity, accuracy and reasonable prices.

"Hip" Vaudeville Day At Arcade Theatre

Tomorrow will be Hippodrome vaudeville day for La Grande. If the first week's attendance can be taken for any indication as to how the people take to this class of vaudeville the shows to come will have no kick as to the crowds they have to play to.

This week's bill includes the famous Cooper-Rigdon dancers. "The Dance of the Snow" is the very personification of light airiness and dainty coloring. Not a sound do the fairy dancers make. The Japanese court dance by Joan Hardcastle is unusual in the slow grace, the winding flame-like motions. The boudoir dance by Grace Fenimore is a dainty bit of light flitting, as is also the first number with the symbolic costuming. A Persian and a Japanese emotional dance is also included in this number.

Another popular number will be Edwards and McKenna. This couple are but recent arrivals in this country, having just completed a most successful tour of Australia, China, Japan and the Hawaiian Islands. Miss McKenna, who has a most charming manner and pleasing stage presence, also possesses a most beautiful rich dramatic soprano voice seldom heard on the vaudeville stage. Mr. Edwards possesses a pure rich dramatic tenor voice of unusual quality and never fails to please the most critical and exacting audience. This Duo will be heard in popular and classical selections. The comedy end of the bill is well handled by Len Leone. His act is a unique comedy novelty in which he introduces sensational and comedy tricks on the bicycle and unicycle and grotesque acrobatic dancing.

On account of the length of these shows the first evening performance will begin at 7 o'clock and the second show at about 9 o'clock. The matinees will begin at the usual time—2 o'clock.

Thousands of garments were contracted for, all the frills of the middleman are eliminated through this process and it means a genuine saving of 33 1-3 per cent.
