

You Can Make Excellent Cake with Fewer Eggs

Just use an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE

Old Way

- 1 cup sugar
- 1/2 cup milk
- 1/2 cup flour
- 2 teaspoons Royal Baking Powder
- 3 eggs
- 1/2 cup shortening
- 1 teaspoon flavoring

New Way

- 1 cup sugar
- 1/2 cup milk
- 2 cups flour
- 4 teaspoons Royal Baking Powder
- 1 egg
- 2 tablespoons shortening
- 1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Royal Baking Powder together two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing

Road Bonding Bill.

In this issue of The Recorder will be found the full text of the six million dollar Road Bonding bill which will be submitted to the voters of Oregon at a special election, June 4th. We urge our readers to become familiar with its provisions and preserve this issue for future reference.

The Recorder has reserved comment on this measure for some time, feeling it a duty to at least become in a degree familiar with it before expressing an opinion, and at this time it is our belief that the measure is one of merit, decidedly constructive and one which, if adopted will start Oregon on a sensible road building plan, eventually providing a system of permanent roads throughout the state.—Elgin Recorder.

Mabel Normand Enjoys a Holiday

DUCK HUNTING POPULAR SPORT OF FAMOUS SCREEN STARS

Mabel Normand Holds Highest Record for Feminine Marksmen Who Have Secured "Limits" During Current Season in Southern California

Of all the out-of-door sports indulged in by the hundreds of beautiful and famous women who make up the motion picture colony of Southern California, none enjoys such popularity as duck hunting. There is a certain fascination about the sport that seems to have a strong appeal for the motion picture actresses enough to secure an occasional holiday. The coast of California at distances of from fifteen to fifty miles from Los Angeles is thick with ducks and duck clubs. From October, when the season opens, till February, when it closes, it sounds like a battle. At most of these clubs shooting is allowed but two days a week. During the period between seasons, the ducks are fed on young grain sprouts. Most of the country south east of Los Angeles along the coast is marshy peat land. Upon this celery thrives; indeed, much of the early celery used in the United States comes from this district. And, as you know, celery is good for ducks. Probably the best wing shot among the motion picture actresses is Mabel Normand, the former Keystone star, who is now at the head of her own company, making a big feature comedy, "Mickey." She uses a gun especially constructed for her. Miss Normand, by the way, was a hunting devotee before she became a screen star. The sport is not a recently acquired publicity bid with her. Above is a photograph of Miss Normand in the middle of a day's sport. She always manages to bag enough ducks to relieve the starvation situation in Poland and Belgium. This picture, then, obviously was taken before lunch.
