Cove News Notes Cove, April 3.—(Special)—Earl Landers of Cove, who was called to his colors, upon arrival at Portland, wired L. E. The hall was crowded and enthusiasm ran high. Mayor Galloway was elected chairman and Prof. R. J. Allen secretary. L. E. SALT CHECKS FATIGUE. Sanitago, Santo Domingo, April 7.—(Special)—Encouraging results from the administration of common salt as a remedy against excessive perspiration in the case of marching troops are reported by Marine Corps officials here. Sweat contains about six parts of salt in the thousand. A tropical day's march results in the exudation of three to four quarts of sweat, with a salt content of 200 to 250 grains. For experimental purposes about 100 Marines were given a teaspoonful of salt (about 75 grains) in the morning before beginning their day's march. After a tropical march of nearly twenty miles the Marines thus dosed exhibited much less fatigue than their comrades, and their perspiration was but a fraction of that of the others.
