New Game Code In Effect May 21

If You Want to Save Fifty Cents on Licenses Take Them Out Before the New Laws Go Into Effect.

La Grande, April 11.—(To the Editor)—The session of the legislature just closed, passed a game code which is in the interest of the game instead of the sportsman; in other words, it is a code for the conservation of game, and I am sure will work out beneficially in the years to come. The code will not go into effect until May 21. The first change is with reference to the law in regards to using dogs for the purpose of chasing or hounding deer. The 1915 law was repealed and the following substituted:

No person or persons shall make use of a dog in hunting, pursuing, or killing any of the game animals of the state of Oregon.

Any free running dog or dogs running at large in territory inhabited by deer or found following upon the track of any game animal of the state or any free running dog or dogs running at large in any fields of the state after the owner has been duly notified in writing by any game warden or other officer entrusted with the enforcement of the game laws of this state, and if the reputed owner disclaims ownership of the said dog or dogs, the same may be declared a public nuisance and may be killed at such time by any game warden or other person entrusted with the enforcement of the game laws without criminal or civil liability.

One-half of all fine money hereafter will be forwarded to the state treasurer to be deposited to the game protection fund.

Both men and women are compelled to take out hunting license under the new game code. Although women are exempt from purchasing a fishing license, the price of a hunting license is \$1.50 instead of \$1.00 and the same for an angling license.

In Game District No. 1 western Oregon, the season on deer opens August 15 and closes October 15 the same year; the bag limit two deer with horns in one season.

The open season all over the state on migratory birds hereafter will be from October 1 to January 15.

The Chinese pheasant hen has been protected and it is unlawful to kill the same at any time hereafter.

In Game District No. 2, Eastern Oregon, the open season on deer begins September 1 and continues until October 31; the bag limit is two instead of three, with horns.

In Game District No. 2, the open season on sage hens begins August 1 instead of July 15 and continues until August 31.

The bag limit on trout has been changed throughout the state from 75 to 50 trout, or 35 pounds in any one day.

On Game District No. 2, winter fishing has been eliminated except for trout over 18 inches in length.

Game Breeders' permits will hereafter cost \$2 instead of being issued free as heretofore.

Just as soon as we are able to do so we will complete the new law books and distribute the same.

In the meantime I will give as wide publicity as possible to the changes, and especially urge the sportsman to take out their licenses at this time in order to save the 50 cents, if they so desire.

No license will be sold after May 21 for less than \$1.50.

J. W. WALDEN,
Deputy Game Warden.

Sprains and Strains Relieved.

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like musky plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25c.—Adv.

Water Power a Resource.

Portland, Ore., April 11.—(United Press)—Even the great undeveloped water power of the Pacific northwest may be an important factor in the war with Germany. Sites where electric energy can be generated at a low cost are necessary for the economical manufacture of nitrate, used in making powder. At the present time the United States is dependent upon importations from Chile for nitrate. Congress has appropriated \$20,000,000 for the establishment of a nitrate plant and State Engineer Lewis, with the backing of many civic bodies, is urging that \$1,000,000 or more of the appropriation be used for the development of one of the many ideal sites in the Columbia basin. In a statement made to W. D. B. Dodson, secretary of the Portland Chamber of Commerce, Lewis suggests that the government erect a plant on the Deschutes river in Eastern Oregon. Extensive kelp beds along the coast of Washington and Oregon, rich deposits of phosphate rock in Idaho and Montana, and a deposit of diathermanous earth in central Oregon coupled with the wonderful possibilities of power development, would enable the government to manufacture explosives at a low cost, according to Lewis. Idaho, Montana and Washington also have ideal sites for a nitrate plant and at several points along the Columbia are sites for power plants of exceptional capacity.

Some Good Advice.

Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.—Adv.

Dusty shoes are always the hottest because polished shoes throw off the heat.

Constipation and Indigestion.

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.—Adv.

Teachers Organize.

Eugene, Ore., April 11.—(United Press)—The school of journalism of the University of Oregon is one of the charter members of the Association of College Schools of Journalism just organized at Chicago. The organization was formed by journalism teachers in the leading universities of the country, who are now in convention. Dean Eric W. Allen was to have represented the University of Oregon, but was prevented by illness from attending. He was represented at the meeting by Dean Arthur L. Stone of the school of journalism of the University of Montana.

Nature Cures, the Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.—Adv.

Big Cargo of Hemp.

Tacoma, Wash., April 11.—(United Press)—Carrying a million dollars worth of hemp, the Tosun Maruis expected in Tacoma the latter part of this week. This will be the second of three large hemp cargoes due this spring.

Clear Your Skin in Spring.

Spring house cleaning means cleaning inside and outside. Dull pimply skin is an aftermath of winter inactivity. Flush your intestines with a mild laxative and clean out the accumulated wastes, easy to take, they do not gripe. Dr. King's New Life Pills will clear your complexion and brighten your eye. Try Dr. King's New Life Pills tonight and throw off the sluggish winter shell. At druggists, 25c.—Adv.

Eat Roast Pigeon.

Portland, Ore., April 11.—(United Press)—They're eating roast pigeon at the home of Mr. and Mrs. John Zohajko, 37 West Tenth street, every day this week. Pet pigeons kept in the attic of the Zohajko home were killed when a fire broke out in the attic where the birds were kept. Rather than see the tender meat go to waste in these days of the H. C. of L., the wife finished the job of cooking and the Zohajkos have roasted pigeon at every meal.
