## Nature Cures, the Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.—Adv.

## SECRETARY LANSING HOLDS AMBIDEXTERITY RECORD

Washington, April 13.—(United Press)—Secretary of State Lansing holds the world's long distance ambidexterity record. That is, he claims it. But Secretary Baker claims it, too. The evidence is here submitted for public decision. Secretary Lansing gave an exhibition of handling diplomatic correspondence with one hand and dashing off enticing profiles of charming Gibson girls with the other, smoking a pipe the while. Secretary Baker signed army officers' commissions with one hand, handed them to a messenger with the other, listened to his secretary read the day's accumulation of mail and dictated replies, all at the same time, smoking a pipe the while. The race is neck and neck.

## Refused His Final Papers.

Vancouver, Wash., April 13.—(United Press)—So heart-broken was David Dietterick, of Hazel Dell, when he was refused his final citizenship papers he broke down and wept in the office of the county clerk here. Although he has his first papers and has lived in this country for the last 22 years he is barred from citizenship at the present time by a government order prohibiting the issuance of naturalization papers to natives of countries now at war with the United States.

## Fight Over Pesthouse.

Astoria, Ore., April 13.—(United Press)—Astoria has a smallpox pesthouse which legally does not exist. City Physician Nellie S. Vernon selected an abandoned hotel near the waterfront in which to place the victims of a small epidemic of smallpox here. After the patients were put in the building, outraged residents of the district secured an injunction which restrains the city from maintaining the pesthouse on the site selected. Now City Physician Vernon is wondering what to do with the patients who can't be moved.

## No Wonder It's Popular.

London, April 13.—(United Press) Spring has come to England, and the young man's fancy, whether he wears khaki or not, is turning, after its annual custom, to thoughts of love.

There's a certain movie house out in Golder's Green that is daily becoming more popular. Downstairs it's just an ordinary cinema, but up in the balcony the kind genie who looks after boys and girls in the Springtime has arranged things differently. There are no single seats in the gallery. They're all built double; i. e. with just room for two in each seat. The company is mixed, generally pretty closely. And it costs sixpence extra to sit in the back row.

Some Good Advice. Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.—Adv.

To Increase Food Supply. (United Press)—A state-wide campaign to increase the food supply of Oregon is well organized today. The Oregon Agricultural College, the Portland Chamber of Commerce, the grange and other organizations are back of the move. The purpose is to get more land planted in crops, not only in the country but in the city as well. By distribution of seeds the organizations are encouraging the cultivation of vacant lots and backyards. The O.-W. R. & N. "food preparedness" train operating under the direction of the Agricultural college will be made an aid in the campaign.
