

Coughs and Colds

Coughs, sore throat, bronchitis—who knows but what any of these ailments might terminate into serious pulmonary or bronchial affections. We know, of course, that there is no need of prolonging coughs or throat troubles if you will only take a systematic or intelligent course of OUR COUGH REMEDY. We back this remedy against the world as a most valuable aid in the relief of coughs and colds of all kinds.

Last night it snowed. Today a soft, mushy snow is falling.

Paint May Save Your Town From an Epidemic

PAINT means death to dirt and disease!

Malaria is said to have hastened the downfall of Rome. The insects which transmitted it were more deadly to the inhabitants of the imperial city than their barbarian enemies. Much has also been written of similar injury to Greece in yet earlier times.

At least two diseases are carried by certain species of insects—malaria and yellow fever. All species are disagreeable pests that often make nature's most attractive spots untenable.

Paint kills germs!

Paint up!

- +++++
- + Women dress up in the spring-time.
- + Men dress up in the springtime.
- + Nature dresses up in the springtime.
- + Why don't you dress up your home with a fresh coat of paint?
- + Don't spare the paint brush.
- + If you own a house it will prove it.
- + A landlord who keeps his premises well painted never is at a loss for a tenant.
- +++++

Do Your Part In the Paint Up Campaign

CIVIC bodies all over the country have joined in the crusade against prevalence of rubbish and dirt and the dull, forbidding aspect that follows in the wake of failure to preserve and beautify with paints. They are laying special emphasis upon the paint up feature. Paint makes any frame structure twice as enduring and ten times as attractive, and the adornment phase of its merits applies in full to brick structures.

- Do your part!
- Paint up!
- Do it now!
- Paint kills dirt.
- Paint kills disease!

Some Hints to Guide You In the Clean Up Campaign

HERE are some hints for clean up week: Carpets, rugs and matings should all be taken up and thoroughly cleaned and the floors and woodwork scrubbed. Soap, hot water and a little washing soda and the scrub brush are the howitzers which successfully can combat the common enemy—dust. Invade every hiding place in the kitchen where filth may accumulate. Plug up the rat and mice holes; putty and paint the cracks where vermin may propagate. The cellar should receive a special cleaning.

A fresh coat of whitewash applied to the walls will add freshness and brightness to its appearance. Inspect the plumbing and keep the pipes clear of rubbish heaps. Notify the local department of health of leaks from neighboring premises which are injuring your property and endangering the health of your family.

Gather all the tin cans, discarded and broken bottles and boxes from the back yard and alley. Pull up the weeds and prepare the soil for the growth of flowers, plants and vegetables. The humblest home may be made attractive by a garden display. Do not throw the collected waste into the back alley or on to vacant lots, to be scattered by the wind. Put all the refuse in covered receptacles and then place these near the street curb on the regular collecting days to be gathered and carted away.

Study This List and See How Much You Can Save in Our New

Favors Bond Issue.

We favor the six million dollar bond issue because, the state has organization, the plan, and the co-operation of the national government, which will mean the successful and satisfactory accomplishment of the desired results. We favor it because the building and paving of the trunk line road through the Grande Ronde Valley will be of inestimable value to Union County, and especially to the town of Union.—Union Scout.

PRIZE FARM IN ALBERTA BREAKS WORLD'S RECORD FOR WHEAT

The world's record for large acre-age has been beaten in fertile Alberta by C. S. Noble, an American. The mammoth crop from 1,000 acres has been reaped, threshed and mar-keted, and now the details are being entered according to a cost system like that of a great factory.

Recently the last load of grain, hauled by a team of prize Clydes-dales, arrived at the elevators at Lethbridge, completing a total of 54,383 bushels from 1,000 acres. Be-hind it was a procession of autos filled with member. of the local board of trade.

The story of "How I Did It" in-cludes the use of the most modern business methods. Telephones at a central office were used for person-ally directing operations which cover-ed two square miles and required 120 men.

When Noble's presence was re-quired at any place he had a high-powered automobile at his door which whirled him there at high speed.

It is not many years since Noble left the United States to make a modest start in Canada. Now he owns three farms. His 1916 crop netted him \$100,000.

It was threshing time which told the story of the crop record. When the wheat from the last field was reached it was seen that the world's record was surpassed if this grain threshed 39 bushels to the acre. It went 64 bushels and brought the general average up to nearly 54 1/2 bushels.
