

Scientific Prescription Service

When you are sick enough to require the services of a physician you certainly need the very best treatment that he can give. He cannot give you the best unless his prescriptions are compounded from pure, fresh drugs.

Our prescription department is equipped with drugs, chemicals, etc., of highest purity and potency and all compounding is done by skilled pharmacists who employ the most approved scientific methods.

No better prescription service can be had anywhere and no druggist can put up prescriptions at lower prices than ours and guarantee absolute purity.
