We wish to take this opportunity of saying that just as there is a difference in pigs or cows or horses, so is there a difference in automobile tires. Tires are tires, just as pigs are pigs but Goodyear Tires are chosen by particular buyers. The BLUE RIBBON PRIZE WINNERS of the whole lot are GOODYEAR CORD TIRES.

**Constipation and Indigestion.** These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy

weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.—Adv.

### THE WHAT-YOU-MAY COLUMN

#### BY "GM" Leather.

Leather is a tough, indigestible article of manufacture and commerce grown unconsciously by cows and other animals.

It is used in the manufacture of shoes, restaurant pancakes, belts, beef-steak, traveling cases and lungs for orators. Chiefly the latter. Leather always goes up just before a Presidential campaign.

Most leather used to be used in shoes; but they're putting less in

shoes and more in beef-steak since the war began.
