There is more Catarrh in this section of
the country than all other diseases put
together, and until the last few years
was supposed to be incurable. For a great
many years doctors pronounced it a local
disease and prescribed local remedies, and
by constantly failing to cure with local
treatment, pronounced it incurable. Science
has proven Catarrh to be a constitutional
disease, and therefore requires
constitutional treatment. Hall's Catarrh
Cure, manufactured by F. J. Cheney &
Co., Toledo, Ohio, is the only constitu-
tional cure on the market. It is taken in-
ternally in doses from 10 drops to a tea-
spoonful. It acts directly on the blood
and mucous surfaces of the system. They
offer one hundred dollars for any case it
fails to cure. Send for circulars and tes-
timonials.

Americans At the Front.

Paris, May 1.—A detachment of
74 volunteers for the American ambu-
lance field service arrived here yester-
day. The detachment includes men
from Chicago, Stanford and other uni-
versities. Two more sections will
leave for the front this week and
three shortly thereafter.

China May Enter the War.

Pekin, May 1.—(Special)—A de-
claration of war against Germany by
China is expected within a fortnight.
The special commission for interna-
tional affairs designated by the gov-
ernment has advised that China enter
the war. The question will go before
Parliament shortly.

Bread can be kept fresh a long time
by soaking a small new sponge in
cold water, and placing it in a saucer
in a corner of the bread box.

A method has been invented by a
Russian artist for painting several
theatrical scenes on the same canvas,
the pictures changing as the light
thrown on them is changed.

After Easter This Sport Suit

HEAVY shantung in creamy white,
with a maroon border cleverly
handled to give a most ornate
effect of bandings, is here developed in
this attractive suit. The hip straps
apparently button into two pockets in
a novel way. The front sector of the
sport hat is laced with narrow white
ribbon.

In one Paris collection silk floss em-
brodery, metal and beads are pleasing.

ly demonstrated and featured as trim-
mings on spring models. Ribbon is
used as banding on foulard and other
fabric dresses. Street dresses and
suits are principally in serge and gab-
erdine. Satin and charmeuse are used
for the less tailored dresses advocated
for afternoon and dressy wear.

Little buttons of beads trim the lat-
est blouses and look for all the world
like tiny roses. ANNA MAY.

Modern Dianas Follow the Chase In This

REAL sport from tip to toe is this
outfit. Straw sailor, four in hand
tie, mannish white cotton shirt,
kilted skirt of loud blue and gray
plaids, figured stockings and Russian
leather ties—not a false note. What
takes our eye, however, is the slip-on
of knitted gray wool, ribbed in to give
straight hip lines.

very purpose a chain girdle set with
huge pearls.

Simple serge frocks are made with
the little loose bolero, which has a
tendency to make the silhouette at the
hip line look more slender.

Worsted, chenille and silk fringe are
used on some sport coats, but one can-
not say that this will be a popular
trimming for these practical garments

AT CORVALLIS**

The Gamma Upsilon fraternity at
Corvallis, a local, was installed as a
chapter of the Sigma Nu National
fraternity last Saturday.

A large number of the Alumni of
the local organization were back for
the ceremonies. Quite a number of
the Portland members of Sigma Nu
came down for the installation as well
as the entire Chapter from Oregon
University. The installation was in
charge of J. B. Knapp, Fred Kiddle,
Don Newbury, Edward Faubert and
Falcon McGill.

Three La Grande boys are members
of Corvallis chapter of Sigma Nu,
