"BELL THE CAT"

Owners Urged to Give This Protection to Our Birds.

Photo by American Press Association.

The Chicago Humane society has sent out a nation wide request for owners of cats to bell their pets so birds may be warned of their approach.

Protection for American birds was the theme of hundreds of special programs in schools all over the country the other day, celebrating the third annual bird day of the Liberty Bell Bird club. Founded in 1913, it now has a membership of 772,500.

Eleven governors issued proclamations making the observance of bird day official in their states. More than 10,000 public schools where the study of birds has been introduced by the club had a part in the celebration.

The necessity for increasing the nation's food yield this summer has called attention to the importance of "bringing back the birds." Reports show that a large per cent of the birds of the country have been destroyed, and as a consequence the farmers and fruit growers of the country lose \$1,000,000,000 a year by the ravages of insects.

To increase the bird population the Liberty Bell Bird club is advocating feeding birds in winter, putting up bird houses, establishing bird sanctuaries in every town and the regulation of cats by putting bells on their necks.

ROAD BOND BILL GROWS IN FAVOR

Gains Support When It Is Shown Taxes Will Not Be Increased.

As soon as the general public understands that the extra tax on automobiles will pay for the hard-surfacing of the highways in the proposed trunk lines over the state, friends for the good roads movement increase. The title of the bill gave it a black eye as soon as it appeared. The word "bond" scared them stiff. It is now being understood that the road money that has been available in the different road districts is not interfered with under the proposed plan, but is paid out of the increased assessment on automobiles. The bond issue then becomes simply the state loaning its credit to get the good roads now, and let the extra auto tax pay for them as they are being used. The proposition is growing in favor as it is understood.—Hubbard Enterprise.
