UNION COUNTY OFFICERS.

(Continued from Page 1.)

the drafting of citizens for the Army, a Nation-wide census is being undertaken. As governor, I have been called upon to conduct this work for Oregon.

Secretary of War Baker has placed before me an outline of the plan to be followed, which, briefly, is this:

Registration will be conducted through the usual channels; that is, the county and local precinct officials. Each county will be a unit by itself, all acting under the general supervision and with the co-operation of this office.

County Boards Named.

At the suggestion of the Secretary of War, the governor designates the sheriff, county clerk, and county physician as the official registration board for the county. It is hoped, and expected, that so far as possible the services of the various officials and clerks will be given without compensation, as a voluntary patriotic contribution to the great work of mobilizing the nation's resources for wartime efficiency.

Immediately upon the signature of the completed bill by the President there will be sent to me instructions covering all details of state, county and precinct registration. Also there will be mailed from Washington, direct to each sheriff, all the necessary blanks. Should these not reach you, a reserve supply will be available at this office.

The Secretary of War dwells upon the great importance of the utmost haste in getting the registration work under way. It is the most stupendous task of the kind yet undertaken. In this country, and the immediate success of organizing the proposed armies by selective draft depends upon the efficiency and prompt co-operation of state, county and precinct organizations.

I am, therefore, writing this letter to inform you of what Oregon has been called upon to do. Until you receive the blanks, and I am able to place before you the detailed instructions which later will come to this office, you cannot actually start operations. But you can, and I sincerely hope you will, lay your plans and get in touch with your fellow county and precinct officials, with the end that general preparation may be made for prompt and efficient conduct of the work.

Volunteers Are Needed.

You will please inform your county clerk and county physician that you three comprise the registration board for your county. I also suggest that you call for volunteers who will co-operate in the considerable clerical and detail work which will be required. The assistance of local commercial and municipal organizations would be valuable, and should be enlisted.

Here is a practical opportunity for public-spirited men and women of your county to co-operate with you in this big national undertaking, upon which in such a large measure depends the success of our military organization.

While this office is responsible for the conduct of the war-census in Oregon, the details of administration will be conducted, under my supervision, through the office of the Adjutant-General of Oregon, whose address is 640 Morgan building, Portland. Queries concerning the conduct of the work

should, so far as possible, be addressed to him, and every assistance and co-operation will be rendered by both his and this office.

It is my earnest desire that Oregon shall acquit herself creditably and I ask for your utmost co-operation and the patriotic assistance of the citizens of your county.

GOVERNMENT WILL MAKE \$200,000,000 LOAN

The government has decided to issue another series of \$200,000,000 worth of treasury certificates; according to telegrams received today by both of the local banks. The issue will be dated May 10 and mature June 17. The interest rate is three per cent. Both the local banks will receive subscriptions, which are urged as a patriotic duty.

Spuds Cause Divorce.

Portland, Ore., May 2.—(United Press)—The high price of potatoes is responsible for a divorce suit on file here today. For 10 years Mrs. Belle Rogers charges in the suit she had nothing to eat but potatoes. But when the humble spud became the haughty potato at \$4 a sack, her husband decided that even potatoes were too good for her. He forbade their use. She cooked some despite his edict. A fight followed, and now comes a divorce suit.

Mrs. Peter Arnoldus returned to her home in Summerville today after spending some time in La Grande during the illness and death of her father, Robert Finley. She reports her mother is recovering rapidly from her recent illness.
