FATHER AND SON DIE SERVING FRANCE.

Paris, April 15.—(By Mail).—(United Press).—Under-lieutenant

Edouard Rey, Sr., 50, and Poilu Edouard Rey, Jr., 18, father and son, died together in the same battle. Official records have just told the story. The two Reys left wife and mother in a cottage in the village of Gaillard, France, and marched away together to fight the Germans. The elder Rey, more brilliant, won medals and promotions. His son, however, was content to fight quietly by his father's side. One day the task fell to the elder Rey's section to bomb out a German machine gun which had held up the progress of the section. Father and son advanced side by side as usual. Two bullets struck the father, but did not stop him. A third struck him in the head and he fell dead just as another bullet mortally wounded his son. They died almost at the same moment.

SOUTHERN CITY FOSTERS SOUTH AMERICAN FRIENDSHIP

New Orleans, May 11.—(United Press).—As evidence of an awakening spirit for co-operation between the United States and South American republics, committees of the Foreign Trade Bureau of the New Orleans Association of Commerce are organizing a "Latin American club" for the purpose of promoting friendly relations between New Orleans merchants and those of South America.

UNDERTAKER KNIVES VISITING NURSE

Cincinnati, May 11.—(United Press).—The visiting nurse as a menace to undertakers' business was discussed before the national convention of the Society for the Study and Prevention of Tuberculosis here today. Miss Fanny F. Clements of Washington, D. C., superintendent of the Town and County Nursing Service, told of a mining town in a western state where eighteen months a visiting nurse worked with great success. Then suddenly the girl found her financial support had been withdrawn by a vote of the town board. Of the three board members who cast the majority vote, one was an undertaker who frankly said he opposed the nurse because since her arrival there had been a great falling off of infant funerals. Another owned an unsanitary barn next to the school house. It had been torn down on complaint of the nurse.

Trains of Thought.

What we need for most of our trains of thought is more freights and fewer parlor cars.

The average train of thought isn't big enough to carry a full sized opinion on any subject.

Most of them are forever going and never getting anywhere. What they need is a new schedule and a fresh timetable.

The greatest trouble is, though, that some men are too narrow-minded to accommodate broad-gauge tracks for

their trains of thought. Their equipment could all run on a gnat's eyebrow and never fall off.

Take a look at your train of thought sometime. See if it is suffering from any of these defects. If it is, flag it at once and see what can be done.
