"Our country prosperous can pay our war costs, as they come, and have enough left over to aid our allies.

"Our country unprosperous, with business halting, money hoarded through fear or false economy, will be hard pressed to keep food on the table and clothing on the back.

"Keep business going is a patriotic slogan. Keep money in circulation. Keep employment for everybody. Keep wages good. Keep on making money that we may have money to spend for war sacrifices.

"The worst thing that could happen to the world these days would be business depression in our United States.

"War in itself does not cause business depression.

"The billions of dollars of money to be expended in war preparations will be put into circulation in our own country, and this in itself will create new wealth for use in the world-struggle for humanity.

"The one thing that might halt business now is an unpatriotic psychological feeling of panic and a false idea of patriotic economy.

Patriotic Economy.

"Patriotic economy means the elimination of waste and extravagance. It means the conservation of our food products, our natural wealth, our health, our energies, our labor, our very lives. It means putting more efficiency in everything we do so that each unit of money, energy, and intelligence may accomplish the utmost.

"Patriotic economy does not mean the lowering of America's standard of living, which would make us less efficient physically and mentally, nationally and individually, and would kill the spirit and the will to do the truly self-sacrificing things to be done.

"Cities and communities must go on with their civic improvements. Road building and public works must proceed. Railroads must renew their equipment. Factories must be kept going to their full capacity. Labor must be employed. Homes must be kept up. Merchandise must be produced, distributed, and used.

"War duties and war expenditures must be in addition to peace duties and peace expenditures. The more we do the more we can do. The more money we spend the more we will have in our pockets to spend. Money creates money.

"In a word: The natural sane life of the country must proceed as though we were not at war, in order that we may have the necessary prosperity to promote the war to a quick and successful conclusion.

"President Wilson sounds the keynote in this sentence: 'It is evident to every thinking man that our industries, on the farm, in the shipyards, in the mines, in the factories, must be made more prolific and more efficient.'

"Our industries can be made more prolific only if the people buy and use the merchandise produced by our industries. Manufacturing slackens when business slackens. Manufacturing grows in a prolific way when business grows. And business can grow and remain healthful only when the people buy and keep money in circulation.

Business Is Going Strong.

"Business is going strong—in the East, the West, the North, the South. The country is prosperous. Last month's increase in business was very large. Banks may wait in their operations until the government bonds

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

are assimilated. People may pause temporarily in their outfitting to arrange to meet the new conditions. But the unloading of billions of dollars will unloose a flow of prosperity absolutely necessary to sustain the world's burden.

"Governments set the pace in their expenditures.

"Individuals must not lag behind. Seven billions of dollars to pay is only \$70 per capita in the United States. Yet seven billions of dollars, put into work at 6 per cent—a fair estimate of the producing power of money—will create 420 millions of new wealth.

"The income tax we pay will not be a tax on prosperity, but a spur to prosperity. Every dollar the individual pays out will come back to him with interest in the general prosperity of the people.

"Keep business going—for our country's sake. War cannot be waged and won without the sinews of war."

Alicel New Notes

Basket Social Will Be Given Friday—Epworthian Girls Give Social—Mrs. John Friswold Returns from California—Chas. A. Playle Reported Ill—Measles Epidemic Abates.

Alicel, Ore., May 14.—(Special)—Church services were well attended Sunday, Mrs. P. E. Christenson was Epworth League leader. An interesting talk was given by Mr. Christenson on "The Big Drive."

The Basket social will be given Friday evening. A short program will be given. The proceeds from this will go for the support of the League convention June 3-5.

The social given to the Big Mitts by the Epworthian girls was thoroughly enjoyed by all present. Lively games and good jokes made the company one of the gayest and happiest of any social function that has yet been given. Refreshments were served at 11 o'clock, and at 12 the guests departed hoping for another entertainment soon.

Mrs. Jno. Friswold and sons returned to their home at Alicel last week, having spent the winter in California.

Chas. A. Playle is very ill at present.

The measles are a little better now but few of the scholars have returned to school.

The pageant the school was to give June 1 has been given up on account of the absence of so many pupils.

Crops and gardens are growing nicely since warm weather has begun. The crops near the river are all flooded and cannot be cared for for some time yet. The men who have resided in the valley for any length of time say the water has not been so high for many years. The bridges and grades are unsafe. The mail carrier makes nearly 30 miles a day because of the water. The "Big Ditch" is also very high. Levees on the various farms are broken, in spite of the work the farmers are doing to keep them from breaking. They are hoping that no serious damage will be done to the crops but still the worst is to be feared.

Mrs. Watkin's school closed Friday and also the Red Pepper school.

Thos. Wallsinger has purchased a new automobile recently.

Boy Confesses Murder.

Salem, Or., May 15.—(Special)—Fifteen-year-old Carl Tuell, committed to the Boys' Training School because of robberies of beach cottages in Lincoln county, in which he had participated with the notorious convict, Jess Hall, last night confessed to Sheriff Bert Geer, of that county, and to employees of the state training school, that he shot and killed Hall about a month ago at their lonely camp on the beach near Seal Rock.
