It is timely dressed, alert men who are doing the notable things today. By indifference in his attire a man—justly or unjustly—lays himself open to the suspicion of not being in step with the forward-moving times in which we are living.

action moves along rapidly and the scenes are replete with incidents of timely interest.

Bessie Barriscale and Charles Ray co-star in this Thomas H. Ince production. They give an unusual dramatic performance. Miss Barriscale, as a hoyden, is fascinating and the trousers she wears add considerably to her charms. Charles Ray, as the young American millionaire, is as handsome and convincing as usual.

PROVIDES GOOD ROADS WHERE MOST NEEDED

I am for the road bond issue because I believe it will give us of Oregon good roads and at places where we have not good roads now, and where we need them most. There is only one plan before us by which we may obtain some really good and serviceable roads and that is the present scheme of permitting the state to sell \$6,000,000 in four per cent serial bonds to be redeemed both in principal and interest by the revenue derived from a state tax on automobiles. If we do not adopt this plan we of Oregon will continue as we have already continued too long, with poorly drained, wretchedly located and miserably surfaced roads, impassable in winter and impractical and expensive at all times.—Rufus C. Holman, President of State Association of County Judges and County Commissioners.

WHAT GOOD ROADS MEAN TO MOTORISTS

Every motorist has observed how his car accelerates when he goes from an unimproved road to a stretch of hard-surfaced; but he may not realize how large a saving of power and gasoline that acceleration represents. If he were to travel over a hard even surface habitually instead of over the average country road, his gasoline bill would be greatly reduced. A motorist in Mississippi has figured out that hard-surfaced roads in his community save him \$30 per year in the gasoline consumed by a single car.

In the face of these facts, is there any possible reason why every automobile owner should not vote for the \$6,000,000 good roads bond bill?

Poor roads are very expensive things for country communities. The farmer who thinks that improved highways are mainly for the benefit of those who drive automobiles should reflect on the result of a recent investigation by the Department of Agriculture, which finds that the cost of hauling farm produce over ordinary country roads is 23 cents a ton, whereas over hard-surfaced roads it is only 13 cents.—Fact and Comment in Youth's Companion, May 10, 1917.
