ARCADE

"A CORNER IN COLLEENS" AT ARCADE WEDNESDAY AND THURSDAY

This is a story of a young American millionaire who falls in love with a tom-boy Irish lass. The comedy and dramatic incidents of the story take place during the recent Sein Fein rebellion in Dublin. The little tom-boy has many reasons to hate the man in love with her and eventually she is the means of saving him from imprisonment and death. The action moves along rapidly and the scenes are replete with incidents of timely interest.

Bessie Barriscale and Charles Ray co-star in this Thomas H. Ince production. They give an unusual dramatic performance. Miss Barriscale, as a hoyden, is fascinating and the trousers she wears add considerably to her charms. Charles Ray, as the young American millionaire, is as handsome and convincing as usual.

Best Remedy for Whooping Cough. "Last winter when my little boy had the whooping cough I gave him Chamberlain's Cough Remedy," writes Mrs. J. E. Roberts, East St. Louis, Ill. "It kept his cough loose and relieved him of those dreadful coughing spells. It is the only cough medicine I keep in the house because I have the most confidence in it." This remedy is also good for colds and croup.—Adv.

BEAN BILL DECISION MAY OPEN LANDS

Roseburg, Ore., May 30.—(United Press)—The action of the state supreme court in holding against the Bean bill has hastened the day when the Oregon and California grant lands will be thrown open to public settlement in the opinion of land office officials here today. Receiver R. R. Turner has a communication from Commissioner Tallman at Washington stating that the opening of the lands would follow immediately the disposition of tax matters. Since this is now practically settled by the action of the supreme court in declaring the Bean bill invalid, all obstacle to the final settlement of the grant is thought removed.

The characters were all well chosen and some strong acting and good singing brought forth cheers and much laughter. The Indian mother-in-law, who held everyone under her thumb, and who had a mania for getting married, and the medicine man were the comedy roles. Following is the cast of characters: Pocahantus, Margaret Phy; Pow-hat-on, chief of the Chuck-dollas. Supt. E. E. Arant; Ah Meek, the mother-in-law, Eleanor Davis; Ah Hum, medicine man, Horace Weaver; John Rolfe, Golden Geertsan; John Smith, Joseph Thompson; Wah-Wah-Tah-See, Nora McDaniels; Lady Bird, Amy Hibbert; Queen Anne, Laura McKeenan; An usher, Richard Davis; and choruses. All the costumes with but two exceptions were made by the girls of the domestic art class. They brought forth much praise. The color scheme of the court scene was pink, lavender and yellow. Miss Johnston had charge of the arrangements of the final scenes which were carried out very creditably.

The Memorial Sunday services were held at the Presbyterian church yesterday morning. The ladies of the W. R. C. and the G. A. R. occupied seats of honor to the front of the church. MARION COUNTY HAS INCREASE IN CROPS

The following figures on acreage, while applying only to Marion county, show in general the increase throughout the entire Willamette valley: Spring wheat, 16 per cent above normal; oats, 6 per cent above normal; corn, 56 per cent above normal; potatoes, 73 per cent above normal; hay, garden crops, over 100 per cent above normal. His figures show a decrease of 13 per cent in fall wheat acreage and a large decrease in hops. A large decrease is also shown in the number of sheep, brood sows and poultry on the farms.

A FINAL WORD ON ROAD BOND BILL

Provides Immediate Construction of Permanent Highways Without Increasing Taxes.

Much has been said in opposition to the good roads bond bill that has no bearing whatever on the measure and which could be designed only to poison and prejudice the voters against it. That being the case, the following pertinent facts are submitted for the information and thoughtful consideration of the impartial voter on the eve of the special election June 4th:

This road bond bill proposes the issuance of \$6,000,000 twenty-five year four per cent bonds for the construction of a system of state-wide hard-surfaced highways. The roads to be improved are designated in the bill and include the main-traveled roads throughout the state.

Adequate revenue has been provided by statute for paying both interest and principal and retire the bonds at maturity without increasing taxes. The money derived from the increased automobile license and the existing quarter-mill state road tax will pay the interest and retire the bonds and leave a substantial balance for the construction of other roads not enumerated in the bond bill.

The increased automobile license and the state road tax are provided by statutes now in effect and will have to be paid regardless of whether or not the road bonds are voted at the special election June 4th.

The automobile owner is willing to pay the increased license. All that he asks is that the license money, which has to be paid anyway, be expended in constructing the roads proposed in the bond bill. The automobile owner will provide all of the money necessary to meet the interest charges and retire the bonds. He fails to see why there should be any opposition to the expenditure of the money so provided in the construction of good roads, in view of the fact that it is his money that will pay for the improvements.

All of the money raised from the bonds will be expended under the direction of the State Highway Commission, appointed by Governor Withycombe. The Commission has announced that in expending the fund all sections of the state will be considered impartially. A dollar's worth of road construction for every dollar expended is guaranteed by the Commissioners, who have declared that they will purchase one or more paving plants and lay paving unless satisfactory bids are submitted by paving contractors. Ordinary common-sense business principles will also govern the Commissioners in their work of road building. Scarcity of labor and the reasonableness of war-time prices for materials will determine the time for inaugurating work and the scope of actual road construction. Road building will not be undertaken by the Commission unless conditions are favorable.

Approval of the road bond bill June 4th will be an indorsement of a plan that insures for the state the construction of a system of hard-surfaced roads with funds already provided by law and without increasing other taxes.
