collar and flare cuffs. Body and
sleeves silk lined, shirred top skirt
with detached belt. Suitable for wear-
ers of from fourteen to twenty years.

Method of Keeping the Hands in Condition

Keep on your washstand a bottle of
vinegar and salad oil (two parts vine-
gar to one of oil), and after washing
your hands and before drying shake
the bottle and rub just a little of the
mixture well into the skin. Then dry
very thoroughly.

If the oil doesn't agree with your
skin, use lanolin instead, applying the
lanolin first and rubbing it well in
and then rubbing in a little vinegar.
Lanolin suits some skins better than
the oil.

If you are going to do gardening and
don't want your nails to get black, soap
them well before beginning. The space
under the nails being filled with soap,
there is no room for dirt to go in.

When you have done working wash
your hands in hot water, using good
soap and plenty of fine sand with
which to rub them. This treatment
will very quickly remove all dirt.

Suggested Ways For Reducing Meat Bills

Reduce your meat bill. That is one
of the steps in thrift advocated by the
committee on utilization and economy,
Kansas council of defense.

Here are suggestions, some of which
may be put into practice, the commit-
tee believes, by every housekeeper:

Meat substitutes may be used, such
as eggs, cheese, milk, peas, beans and
nuts.

Do not buy meat until you have
bought one pint of milk a day for each
member of your family.

A dozen eggs are worth as much in
the dietary as two pounds of meat.

Waste in meat, the committee points
out, may occur in leaving the trimmings
at the market, in throwing away
rats that could be used in frying, short-
ening or soap making; in throwing
away bones that could be used in mak-
ing soup and in not using the leftovers.

Use Washing Soda Carefully.
Don't use washing soda, except in
solution. Many women put a handful
of soda into a pot before washing, and
soda is too strong an alkali. That is
what makes hands red. Two table-
spoonfuls of soda are enough for a
large tub of water. Make a solution,
keep it in a jar and use a little at a
time.

NOW IS THE TIME

Now is the time to consider kitchen-
comfort this summer—now is the time
to buy an oil cook-stove.

Look for the specially-decorated win-
dows of the merchants listed at the left.
The orange discs proclaim a message
welcome to every housewife. They tell
how the New Perfection drives out the
drudgery and discomfort of summer
cooking, and at the same time gives better
results than your regular kitchen range
for all-the-year-round cooking. This is
New Perfection Oil Cook Stove Week.
Ask these dealers to explain how the
long blue chimneys of the New Perfec-
tion Oil Cook-Stove prevent all smoke
and smell. Learn the comfort and econ-
omy of cooking with Pearl Oil.

FRIENDSHIP.
Friendship is a stone which when it is flawed by heat or violence or accident may as well be broken at once, as it can never be trusted after. The more graceful and ornamental it was the more clearly do we discern the hopelessness of restoring it to its former state. Coarse stones, if they be fractured, may be cemented again, precious ones never.—Walter Savage Lander.

Whooping Cough.
In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."—Adv.
