Motorcyclist Picnic Is Enjoyable Outing

The motorcyclist picnic given by Chase Bohnenkamp and George Ruby, Sunday, to Catherine Creek was an enjoyable outing. Fifty or more donned their outing garb and when the roll call was given for eats, all were present and gave a good account of themselves but the larder was full and there was more than enough to go around.

In a free-for-all shooting contest which was held a young fellow by the name of Chandler took first place by making 23 out of a possible 30 points. Slagle was second with 19 while Mrs. Roscoe Neil took first place among the women and third place among all contestants with 17. In the 50-yard dash Bunning took first in six and three-fifths seconds while in the girls 25-yard dash Ruby Lane took first in four and three-fifths seconds. Heagy took first place in a feature race in which the cyclists ran 50 yards mounted their machines started them and returned to the starting point.

The fish seemed to be on an outing also yesterday as no one returned with more than the law allows. The creek was high which possibly had much to do with the scarcity of fish.

Cattle Loan Company Formed.

Spokane, Wash., July 10.—(Special)—A new development in the livestock industry of the Inland Empire and one which again forcibly emphasizes the growing importance of this big resource is seen in the incorporation of the Spokane Cattle Loan company which has just filed its papers.

As the name would indicate the company proposes to loan money to experienced sheep, hog and cattle men that they may expand their herds. The promoters are Spokane bankers with William Huntley president and J. V. Rea secretary manager. Mr. Huntley has been heavily interested in livestock and grain for years.

The fact that such men see sufficient business ahead to warrant the entry of a loan corporation into the field and coming so closely after the purchase of the big Stanton packing plant by the Armour interests and the expansion of the Union Stock yards here, indicates how rapidly the livestock business is forging to the front.

Speaking of the prospects for the new company Mr. Huntley said:

"The fact that the new food bill now before congress will give the authority to the president to place a minimum price upon foodstuff, will, if exercised, place the livestock industry on a safe and sound basis. There is little doubt in the minds of those in charge of the federal agricultural department that this particular part of the food bill will pass and will have the tendency to place the livestock business on a more permanent basis."

Nothing Stopped This Man.

Washington, July 10.—(Special)—Because the loss of the "trigger finger" had prevented his enlistment, Walter Cogswell Forse, age 19, of Binghamton, N. Y., walked all the way from that city to Washington to make personal application to the Major General Commandant of the U. S. Marine Corps. Forse carried a sign on his back which read "From Binghamton, N. Y., to Washington, D. C. to join the U. S. Marines. It's Worth It!"

Upon his arrival here young Forse proved that the loss of the index finger of his right hand was no handicap in the performance of military duty, and special authority was granted for his enlistment. So far as is known, he is the first man, similarly handicapped, to pass the military authorities.

To Be Encouraged.

Miss Gotrox—Nearly all my admirers think I should be able to get tips from you on the market.

Gotrox—Encourage them in the idea, my dear. It won't be long before I'll be ready to unload the stock I'm carrying.—Boston Transcript.

VIVIAN MARTIN AND JACK PICKFORD AT THE ARCADE TONIGHT.

Vivian Martin, the dainty little actress who made such a pronounced success in "The Wax Model," "The Right Direction" and "The Spirit of Romance," was seen at the Arcade last night and will be seen again tonight, supported by Jack Pickford, in the Lasky-Paramount production of "The Girl at Home," written by George Middleton and prepared for the screen by Beulah Marie Dix.

"The Girl at Home" is a typical boy and girl story. It reminds the older persons in the audience of experiences in their own youthful career and it brings surprising revelations to many of the younger generation. No two stars in the country are better equipped to appear in photodramas of this nature than the young couple whose names are seen at the head of the program.

A Paramount Pictograph and a Bobby Bray cartoon complete an interesting program.

Chefs To Teach Economy.

Spokane, Wash., July 10.—(Special)—The Benevolent and Protective association of Chefs of Spokane is the name of a new organization of 30 culinary scientists who propose to help in the national economic movement by teaching its own members how to buy carefully, to analyze foods, to prepare them economically and to utilize the trimmings of expensive cuts of meats by producing palatable dishes. The association will also give Spokane housewives an opportunity to draw upon the knowledge of its members for recipes and for methods of preparing all kinds of food at the least cost and with the least amount of waste, said M. Charles L. Laperruque, president of the association. Plans are under way for joint meetings with housewives and other food economists. Chefs will give brief addresses at these meetings and the talks will be followed by general discussions.
