

Farmers Are Our Friends

Farmers in this territory favor us with a large share of their business because we carry the things they want.

Many things such as Stock and Poultry Remedies, Poisons to protect crops, Canning Supplies, spices, Etc., are needed now.

Our stock is large and complete—so we can nearly always furnish just what is required without delay.

Don't send away for drug store goods. Keep the money at home. This is a time when the merchants and farmers should work together for the betterment of our community.

could not find a table, however hospitable the host or however wealthy, where today more than three courses are served.

"Many things considered indispensable are now surrendered without the least sense of self-denial.

"In the house of commons we had to go three days without potatoes. After the first day nobody seemed to mind or indeed remember that we had no potatoes. We were quite satisfied with rice or turnips.

"Many men and women, some of them rather stout, have given up riding to and fro in taxicabs. Those who never rode in tubes or busses do so now because they realize the number of drivers needed at the front."

soon he was in trouble with the D. A. and Q. M. G. for insisting, long after his insistence had been frowned upon, that medical conditions must be made better. "I threatened to put him under arrest and said I would get his hospital ship taken away from him for a meddlesome, interfering faddist." This is the language attributed to the D. A. and Q. M. G. in the report of the Royal Commission on the Mesopotamia mess.

The incident might have ended just this way, but for the fact that by the time he had got this official into this frame of mind, the noise had reached Sir John Nixon, Commander-in-Chief, who caused an investigation to be made. The result was that steps were then taken to remedy as far as possible the consequences of the terrible earlier neglect. And out of the whole sad story of the first Mesopotamia campaign, as made public by the Royal Commission's findings, about the only paragraph of commendation is that given to the work of the meddlesome doctor.
