## ARCADE

ALICE BRADY IN "MATERNITY" AT THE ARCADE TOMORROW

When the local theatregoers see popular Alice Brady in "Maternity" at the Arcade theatre on Wednesday and Thursday they will not only see one of the most brilliant and unusual photodramas ever filmed but they will also see the most startling and realistic fire scenes ever flashed on a screen. The big fire that comes toward to close of this big attraction, has a tremendous bearing on the outcome of the story. As the result of

its effects upon the women who participates in it, happiness comes to her and her husband. Dear little Madge Evans is seen in this production and has an important part. The production has been staged on the lavish scale given to all World Pictures Brady-Made.

#### Baker Powder Plant Damaged

Baker, Ore., July 31—(Special)—The Fremont power plant of the Eastern Oregon Light and Power Company at Oliver Lake was damaged by fire late Saturday afternoon, but the extent of the loss could not be estimated last evening. The roof of the building was completely destroyed. The debris fell into the machinery, the pit is partially filled with water, so the damage will probably mount high, although completely

covered by insurance.

The origin of the fire is unknown. It is stated at the local office of the company that from two to three weeks time will be required to make repairs and place the plant in commission again. The plant is one of those supplying power for Baker, but the local steam plant was placed in service at once and will also take care of the Sumpter dredges and mines in that section, depending on the Olive Lake plant. General Manager Harmon went to the scene as soon as word was received and will remain there several days.

The company has been very unfortunate recently, its Rock creek plant being badly damaged by the flood when a section of the Kilmaque lake reservoir dam went out early last month. Repairs were just completed there a few days ago, 500 feet of new flume having to be built. The Rock creek plant only resumed operations Friday and Saturday the Olive lake fire occurred.

#### Ed Sutter Injured

Ed Sutter was badly injured and narrowly escaped death last Friday afternoon at the Ed Miller ranch when a hay derrick fell on him. Mr. Sutter was stacking and when the first fork full of hay tipped the derrick which was not securely fastened down and it fell on Mr. Sutter who did not see it. He was severely injured about the back and his ankle hurt. Parties who witnessed the accident say that he is lucky to be alive. He was rushed to town and medical attention given him. His injuries will not prove serious but will confine him to his room for some time.—Union Scout.

#### Building More Silos

W. J. Townley is building three more silos on his big ranch near Hot Lake which he will fill with feed for his stock to be used this coming winter. Mr. Townley already has a silo on the ranch and one on his place in town this will make him five silos. The silos will be filled with a mixture of hay and grain and will prove very economical in feeding his stock this winter according to the way hay is selling at the present time.—Union Scout.

# Canning and Preserving

A PATRIOTIC DUTY

We Call Your Attention to String Beans

Why pay 20c and 25c for a can of string beans?

At 6c per pound we can supply you with choice, tender, string beans, fine for home canning.

Send for testimonials, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

#### River Water Is Being Pumped.

The city is pumping river water from the Palmer Mill pond, whenever the city reservoir falls below five feet. It is necessary to keep the water in the city reservoir up to this height, said Mr. L. M. Hoyt, city water superintendent yesterday. The water consumption at present is very heavy. Persons whose water bills ordinarily run about \$1 or \$2 per month are contracting bills that will amount to \$5 or \$6 a month, irrigating their gardens. So far as is possible, said Mr. Hoyt, the water is pumped from the pond into which a flume discharges which takes the water from the river above the slaughter house. Some water is, however at times pumped from below the slaughter house. It is also stated by Mr. Hoyt that analysis was made of this water some time ago and it was found to be pure. The water is pumped from the side of the river opposite the slaughter house, and it is said that the current would not permit the slaughter house to affect the water. As long as river water is being pumped at all it would seem to the Observer to be prudent to boil the drinking water. You won't have to worry then about it.

#### Married in California

Edgar Moore, formerly of Union, now of Round Mountain California, was married July 5th to Miss Florence Morgan of Redding, California. The young couple will make their home at Round Mountain.

American Generals Reach London London, July 31—(Special)—Generals R. M. Blatchford and John Biddle, of the American Army, with their staffs, have arrived in England.
