La Grande's R. C. U. Store

Society

Mrs. O. J. Roe and daughter, Ramona, of Enterprise, entertained a party of eighteen ladies Wednesday afternoon, complimenting Mrs. J. W. Knowles and Mrs. H. R. Hanna of La Grande. The afternoon was delightfully spent with conversation and music, vocal solos being given by Mrs. S. E. Burgunder and Miss Ramona Roe and piano solos by Mrs. H. Lee Carlton and Mrs. W. C. Jackson. Delicious refreshments were served on the wide veranda, and much of the afternoon was spent in its charming woodbine-shaded coolness. Mrs. Hanna is a house guest of Mrs. Roe.—Enterprise Record-Chiefstain.

Mrs. E. W. Eastman will entertain the Loyal sister of the Christian church in her home at 808 Fourth Street Wednesday afternoon at 2:30.

He is making preparations to leave here soon, as he expects to stop in Portland for a few days before going on down to San Francisco. Mrs. Foley and small son expect to go to her people in Pennsylvania.

BOCHE REPAYING KINDNESS AFTER 47 YEARS

(By United Press)

Paris, July 20—(By Mail)—French kindness to a German prisoner 47 years ago is bearing fruit today.

Early in the war of 1870 French troops took a young German officer prisoner and put him in a prison

camp for the duration of the war. During the long months of waiting for peace the officer and his companions were given every latitude of privilege that a war prisoner could ask.

Today Marcel Richard, a young French sousofficer and his compatriots in the German prison camp at Meiser are reaping the benefit. The German officer prisoner of 1870, now too old for active military service, is commandant of the prison camp. Young Richard has written home to his folks in Paris for his tennis flannels and shoes telling them why he is able to enjoy this recreation.

The commandant is not only allowing his charges every possible freedom but has purchased the tennis outfit—not, racquets, balls, etc.—from his own pocket.

Butter Labels for sale at The Observer Office.

Studebaker SUPERIORITIES —a better balanced Chassis— Four years' study, four years' careful analysis of the performance of more than 300,000 Studebaker cars in the hands of owners all over the world have enabled Studebaker engineers to produce the scientifically balanced chassis. The weight of a Studebaker car is scientifically distributed; this makes the car wonderfully easy in its riding qualities and reduces the tractive effort of the motor. It also helps to reduce the wear and tear on tires to a minimum. Studebaker owners are constantly reporting 8,000, 10,000 and more miles per set of tires. Here again, in one of the most important of all up-keep items Studebaker has proved its value. Island City M. & M. Co. La Grande, Oregon
