

Comfort and Cheer for Our Fighters

We have all done our part in buying Liberty Bonds and contributing to the Red Cross Fund—but there is still a personal duty which we owe to the soldier boys who are near and dear to us. Send them such articles as

- Safety Razors, Razor Blades, Tooth Brushes, Dentifrice, Foot Powders, Writing Materials, Tobaccos, Malted Milk Tablets, Etc.

An inspection of our stock will suggest many other things which will contribute to the welfare of the soldier.

Ask us about a Special Soldier's Kit and an appropriate list of items to send.

HOOVER'S FOOD PLANS.

(Continued From Page 1.)

governments have placed the whole purchase of their supplies in the hands of one buyer. Also, the European neutrals are now buying their wheat through single government agents, instead of in the normal course of commerce. Therefore, the export prices of wheat and flour—and thus the real prices, if not controlled—will be subject to almost a single will of the foreign purchaser.

Large Stocks in Reserve

"8. In normal times, American wheat moves largely to Europe in the fall months. This year the shortage of shipping necessitates its distribution over the entire year. Therefore there is danger of a glut in our warehouse system over a considerable period.

"4. There are large stocks of wheat which cannot be drawn upon by the allies during the war, but in the event of peace or defeat of the submarines, these would be available, and might seriously demoralize the demand for American wheat.

This Year's Problem Broad.

"5. It must be clearly understood that the guaranteed minimum price of \$2 per bushel for wheat, set out in the food bill, does not apply to the

1917 harvest, but only to the 1918 harvest, and then under conditions which must be elaborated. There is, therefore, no determined price for the 1917 harvest.

Children's Diet.

"A child under four years of age should never have dried or salted meats, sausage, pork, game, liver, kidney, goose or duck. Fried and raw vegetables, hot fresh breads, cakes and pastries, salads, candy, sirups, tea, coffee, beer, cider and soda water are all unsuitable foods for a child," says a newspaper. Probably no child ever lived that didn't have one or all of them.
