### LUMBERJACK REGIMENT RECRUITED TO FULL STRENGTH.

Portland, Aug. 23.—(Special)—District Forester, Geo. H. Cecil, Portland, Oregon, announced that the regiment of lumbermen, officially known as the 10th Engineers (Forest) and nicknamed the "lumberjack regiment," has been recruited to full strength, and the Forest Service, which has been securing the men, has been notified by the war department to list no more candidates for service with this regiment. In anticipation, however, of a possible call soon for another regiment of the same character the listing officers all over the country have been instructed to continue listing names of suitable men who may be summoned when needed.

The "lumberjack regiment" is not a fighting force but will be employed in woods operations in France, getting out material for army use. The recruits are now being assembled in Washington, where they are drilled daily by the officers assigned to command them. Colonel Woodruff of the regular army, who will head the regiment, is in charge and with the assistance of a staff made up of practical lumbermen and foresters is providing an equipment of the most up-to-date character for the type of

### THE MILITARY SITUATION IN CANADA.

Ottawa, Canada, Aug. 23.—(United Press)—Canada is facing its first crisis since the opening of the European war.

A general election is to be called by Premier Borden within the next few weeks for early in the fall. The life of the present conservative government expires on October 7th. This will be the first opportunity the people of Canada have had to pass upon the war policies of the Borden government since the Dominion plunged into the great conflict.

The government has been split wide open on the issue of conscription. British Canada, generally speaking, supports conscription. French Canada is almost solidly opposed. The bitterest and most exciting political campaign in Dominion history is in prospect. Upon the result depends the continuance in power of the present conservative government and the enforcement of the compulsory military service act.

Leading the Liberal opposition is Sir Wilfrid Laurier, ex-premier and the idol of the French-Canadians of the province of Quebec. A brilliant speaker and a masterly politician Laurier is bending every effort to bring to his standard all the elements in Canada disaffected with the Borden regime.

Already however he has had to face the refusal of twenty-two non French-Canadian Liberals in the House from Ontario and the western provinces to follow him in his anti-conscription battle. What strength those conscriptionist Liberal party 'bolters' can take with them to the polls has become one of the big question marks of the campaign. In its answer may lie the final decision. On the part of the conservatives they have had to face minor but very significant desertions from French-Canadian conservatives.

Canada has 406,000 enlisted men. Her sea force is made up of five divisions. Four of these are in France and one is held in England as a reserve division. Since the desperate, bloody day at Vimy ridge, heavy drafts have been made on this reserve. Canada must provide more men or soon Dominion troops will be left without reserves. This would mean the elimination of Canada as a fighting factor at the front. Canada must raise 100,000 more men and do it quickly.

Voluntary recruiting is a thing of the past. Canada has no great wealth of man power. Eight million people is her top. Already the 400,000 men who so freely gave themselves to service have seriously tightened the labor market in places. Farmers are in straits for help. In many cities clerks and municipal employees are given half holidays from their regular employment in order that they may go into the fields. This shortage is emphasized by the anti-conscriptionists. Conservatives declare there are hundreds of "slackers" in the cities who could be snared and assert that these are the men they want to get too under the law.

In tricate as is this problem alone, it is intermixed with the racial question, an alien enemy tangle, a tremendously difficult financial situation, involving the nationalization of 7,000 miles of railroads and millions of dollars in advances to others, and a line of hoary but still virulent political animosities, which stirred together offer the Canadian voter a political salad unlike anything previous in his entire political experience.

The next few weeks will see stirring times across the border.

### SPANISH UNREST EXPLAINED.

Madrid, August 3.—(By mail)—(United Press)—The movement of unrest which has been making itself more and more felt in Spain during the last two months, is due to three factors; the agitation in military circles, the discontent of the democratic party, (which includes socialists, republicans and reformists), and the unrest of the working classes, due to the privations of the economic crisis.

The dissatisfaction in the army is due to what is held to be favoritism, certain officers receiving advancement through court influence. It is claimed by the Officers' Committees that the King is aiming to form a personal party in the army on which he can rely for events. A second reason for discontent is the insufficiency of officers' pay and the need for technical reorganization in the army.

As important is the agitation of the democratic group, which is daily growing more dissatisfied with the government's attitude towards the belligerents and lack of firmness with regard to the Central Empires. This group which comprises the various anti-constitutional parties and has been supporting the government forms what is called the "Block of the Left", is working with combined energies to give Spanish neutrality a frankly Ententophile character. One of the ends in view is a diplomatic rupture with the Central Empire, the pretext for which would be the German submarine exploits against Spanish shipping.

The third factor the unrest in the working classes, is entirely due to the economic crisis. Sympathy for one or the other group of belligerents varies according to the different regions.

The main object of the democratic party is, to turn both the military and the proletariat movements to its own benefit, by coordinating them and giving them a common direction.

As regards the military malcontents, this appears feasible, in view of the fact that so far the army has concerned itself very little with the actual form of the government. Therefore if the "Block of the Left" can per-

suaude the dissatisfied military elements that their aims are shared by the democratic group they will not hesitate to make common cause with them.

The democratic group is likewise counting on turning the labor unrest to its advantage. If a general strike is proclaimed, which seems quite likely, and another cabinet crisis is the result, the workmen will not object if the radical party gain the upper hand in the government. This party is therefore watching intently every phase of the labor unrest, as well as the development of the military movement, ready to exploit both whenever the occasion offers itself.

On the other hand the declaration signed by the leaders of the three political parties which fused to form the "Block of the Left" leaves no doubt that this group contemplates vigorous action, even independently of the army and labor movements.

### ALFALFA HAY

Ninety per cent of the hay in Walla Walla County, in all probability, has been sold to cattle and sheep men, leaving a very small percentage to be shipped out.

I am extra fortunate in having about two thousand tons of strictly number one leafy alfalfa hay to dispose of. I can sell the same within ten days to be shipped away, but much prefer to see the sheep and cattle carried through until spring, as I realize that there will be a big stock loss the coming fall and winter unless properly fed.

I can furnish feed ground for the most of this hay. You can ship your stock to Portland via the O. W. R. & N. on a "feed in transit" rate, and stop and feed my hay with no extra charge.

Hay will be \$25.00 before January first. You can get this hay from me, if you speak in time, for \$20.00 per ton. First come, first served.
