"Central" Appreciates Your Kindness

There are three operators concerned in every telephone call—you, the party you are talking to and "central."

All three parties must co-operate if the best service is to be had.

The telephone operators are human, just as you are.

Being human, they appreciate kindness and courtesy, but resent unkindness and discourtesy just as any of us do.

Kindness begets kindness, courtesy creates courtesy and patience encourages patience.

If you wish to get the best out of your telephone, make it a point to be kind and courteous to the operators.

67 Years a Leader

NATIONAL LIFE INS. CO.
MONTPELIER, VT.

The National Life of Vermont, since its organization in 1850, has been growing old without ageing. One of the earliest of American life insurance companies, the National has maintained a progressive leadership by originating some of the most important insurance reforms of the last half century.

For example—

The idea of allowing cash surrender values (a practice that did not become general until comparatively recent years), was adopted by the National Life in 1852—28 years before any state of the Union required by law the payment of a cash value on the surrender of a policy.

This act of the National Life of Vermont pioneer, in issuing an "Insurance Bond"—indorsing in the policy non-forfeiture values, has been called "the grandest step in fair dealing in the history of life insurance."

Again the National led in allowing the insured upon surrender of his policy to select either extended insurance, paid-up insurance or a cash value payment.

The National practices retroaction. The policyholders of the '50s are receiving the benefits of modern policies. You don't have to be a prophet when you insure in the National—YOUR POLICY WILL ALWAYS BE KEPT UP TO DATE.
