## North Powder News

North Powder, Aug. 27—(Special)—The second crop of hay is being put up and it promises to be a good one. Some of the ranchers who have not had a second crop for years, have got a light one this year. It is hard to explain this second crop when we have had such a prolonged spell of dry weather. The irrigated grain is being cut and reports say that it is very heavy. The dry land grain is all cut and most of it is in the stack.

A large number of the people of this town and vicinity took in the Ringling Bros. circus in Baker last week. All report a good time and a fine circus. It is to be regretted that this show could not stop at any other place along in this part of the country as it is said to be one of the best on the road at the present time.

Mr. and Mrs. Steve Dougherty of Vancouver, Washington are spending a few weeks on their North Powder ranch looking after the crops. They made the trip over the mountains in their Dodge car. They report that this section has the best crops of any place they visited on the way. They will return home in a few days.

Windom Carnes and wife and E. A. Carnes and Bennett Harrison made the trip to Tekon, Washington, in an

## Hush! Here's a Fall Turban

If not quite late fall, at least a mid-season's hat is this jaunty black straw turban so picturesquely mounted with paradise feathers. The chic enters with the fastidious placement of these rich trimmings.

Kashmir embroidery is a novelty that is bound to find favor simply because it is so unusual. It is a rather coarse embroidery worked on linen, but it gives the effect of fine stitching. The patterns are of the conventional sort that we glibly call oriental. The colors are very often crude and vivid, yet withal attractive. Table covers and other articles for the cottage or

In the development of the latest peplum blouses sashes play an important part. Cotton net has been added to the list of popular fabrics for blouses of this type, and a dainty peplum blouse of fine white cotton net recently noted was finished about the bottom with hand run tucks, the upper part being embroidered in a sketchy design with heavy, soft cotton thread. The blouse was loosely caught in at the waist with a sash of soft taffeta ribbon in color.

### CITY YOUTH HEARS BETTER THAN COUNTRY BROTHER

Washington, Aug. 27—That the country youth is not able to hear so well as his city brother, and that only about one in five of the former possess the auricular acuteness of the city-bred lad is the opinion of officers at the head of Marine Corps recruiting in this city. Their deductions are based on the number of country boys rejected for poor hearing.

Many persons believe that the continual jarring noises of the city have a tendency to dull the sensitiveness of the nerve centres. However, this is not borne out by the figures of the Marine Corps officers, who believe that the quiet life of the country, free from noises, has a tendency to weaken, through disuse, the responsive nerves in the ear.

Scientists point to innumerable parallels in nature where the disuse of an organ gradually reduces its functioning power or eliminates it altogether. The blind fishes in the dark pools of Mammoth cave are a notable example.

"Last winter broke record for cold and misery among people here. Inexpressible dread coming winter finding us without supplies to meet situation. Urge you on behalf of our soldiers and those of our allies who will suffer in their frozen trenches, and also thousands of French and Belgian refugees and repatriates being returned through Switzerland to France. Every one here looks to America. Begin knitting at once 1,500,000 each of warm woolen articles already requested. They must come before cold weather, and, in view of shortage of fuel and other discomforts, they will be of incredible value in both military and civilian work."

The 250 sets that Union and Wallowa counties have been asked to knit are a part of the order referred to by Major Grayson.

The civilian relief committee of which Dr. W. D. McMillan is chairman, will meet tonight.

The executive committee adjourned to meet next Friday at 4 o'clock. Those present this morning were: Dr. M. K. Hall, chairman; Mrs. T. H. Goodhue, secretary; Mrs. E. P. Mossman, Mrs. George T. Cochran, Mrs. E. T. Andrews, Dr. W. D. McMillan, Fred L. Meyers, T. J. Seroggin and Clarke Leiter.
