

HEADACHE Is a Habit

There's habit in most human ills. The nerve that throbs once will throb easier the second time when conditions which cause it are repeated.

If headaches are neglected their tendency is to come at more frequent intervals.

Do You Realize---

- How much it costs you to pay tribute to the "High Cost of Living?"
- How many high front street rent bills have you helped to pay for?

We don't want you to accept our statements without investigation, but we DO expect you to come in and see for yourself.

"sausage". During the attack his motor went wrong and he was obliged to alight in the enemy's lines for repairs. The repairs were effected under the full fire of all the anti-aircraft machine guns in the vicinity, Boyau retaking the air and crossing back into the French lines at an altitude of only 400 feet under a terrific German bombardment. He received the Medaille Militaire for this.

June 24 witnessed the death of another "sausage" but in returning from the funeral, Boyau found himself in the midst of five Boche airplanes. He brought down one, succeeded in disengaging another French airplane that had been surrounded by Boches and got safely back to the French

lines. Boyau brought down his fifth airplane over Nancy on July 13, after still more successful "sausage" attacks.

He is one of a whole series of French sport champions including Carpenter, Recoign the Olympic swimmer, and Lapize the cyclist who have made wonderful records in French aviation.

A few days later he successfully bombed some hangars far behind the German lines. It was on this trip that Boyau retaking the air and crossing "sausages" and at once planned his career as a "sausage specialist".

Makes Clubbing Arrangement With

The Oregon Farmer

Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.
