Glorious Change Up To White Sox

Victory in American League World Mean Meeting N. Y. For World Title

BY H. C. HAMILTON
 (United Press Staff Correspondent)
 New York, Aug. 31.—A failure by the White Sox to win this year's American league championship would constitute not only the most famous reversal of form in the history of the great pastime, but would be the means of robbing baseball of the grandest chance it ever had to simply wallow in glory.
 It is a foregone conclusion that the Giants will trot under the National league wire first. Hence, a White Sox victory would bring representatives of the nation's two largest cities together in a grapple for the world's title. The commercial and civic rivalry that already exists between these two cities would inject interest in such a series that could be brought about in no other way.
 Such a world's series would be reminiscent of the old Cubs-Giants days when the players used to fight

as ball players nowadays never can fight. It will bring a flicker of recollection of the famous day when Fred Merkle, through his failure to touch second, lost a ball game and a National league championship for the Giants. The Cubs won this playoff and the right to enter the world's series.
 The White Sox park at Chicago holds more than 30,000 persons. The Polo grounds will seat even more than Comiskey park. The sumup of probably five or six games would doubtless be a full stand at every matinee—maybe the greatest crowd in the history of baseball.
 The financial benefit to baseball itself probably would not be within many thousands of dollars of previous high-water marks, for it is an accepted fact that the National commission this year will donate a large share of its receipts to the Red Cross, and that the magnates and players will do the same.
 George Stallings' rebuilding has carried him a long way. In addition to purchase of outfielders and pitchers he has picked off the Eastern league's finest shortstop and hardest hitter in Shortstop Schreiber. This is the league that sent Rabbit Maranville to the Braves. Critics in that circuit pronounce Schreiber a fielder

who approaches Maranville's famous ability and a bitter of far more power and precision. If he is he never will find the National league's exit, even though he shouldn't succeed in displacing Maranville.

Ask Anyone Who Has Used It
 There are families who always aim to keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house for use in case it is needed, and find that it is not only a good investment but saves them no end of suffering. As to its reliability, ask anyone who has used it.

Deserves Rank With Veterans

Eddie Cicotte Beginning to Have Most Remarkable Success As Pitcher
 BY H. C. HAMILTON
 (United Press Staff Correspondent)
 New York, Aug. 31.—Thirty-three years old and just beginning to have his most remarkable success as a pitcher—that's the record of Eddie Cicotte.
 Credited this year with the most successful use of the "shine ball", he also is given credit for having some control over a knuckle ball and is more than the average performer with the spitter.
 Cicotte, a veteran who, according to usual records, should be getting out of the way, heaved himself into the records for keeps when he hurled a no-hit, no-run game this year.
 When Jack Coombs was getting his first experience as a major-leaguer, Cicotte had been taken on by Detroit, found wanting and sent back. He graduated from the same club that turned loose of Ty Cobb and they both went to Detroit the same year.
 Since the beginning of the 1908 season Cicotte has been twirling them over in the American league—first as a member of the Red Sox and then as a member of the White Sox.
 Cicotte missed participation in the 1912 world's series by a hair, for he was transferred to the Chicago club in that year, after he had been turned down and spurned by Jake Stahl as no good.
 Cicotte has been going along in an even way, winning a game here and losing one there. His most successful season was while he was with Lincoln in the western league in 1907. He won twenty-three and lost ten games.
 If the White Sox finally do club their way into the American league pennant it will be largely the fault of this veteran heaver. His work is the most consistent, and the really brilliant among all the curvers of the great baseball club.
 An improved type of multi-speed alternating current electric motor has recently been invented.
 Electricity furnished by a central station pumps half of the entire water supply of Baltimore, Md.

LOCALS

(Continued from Page Six)
