the solidarity of the French republic to three influence; First, a thoroughly sound banking system, centralized in one of the greatest banking institutions in the world, the Bank of France; second, the ingrained thrift and frugality of the French people as a whole, together with a national economic vigor not elsewhere surpassed; third, wise supervision, and patriotic co-operation by the government with banking and business interests.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy.

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately and by taking three doses he was absolutely cured. He has great faith in this remedy," writes Mrs. W. H. Williams, Stanley, N. Y.

GERMANS COMPELLED TO SHOOT MESSAGES TO COMMANDERS

By HENRY WOOD

(United Press Staff Correspondent)
With The French Armies, Aug. 10
(By Mail)—The French artillery barrage fire has now been perfected to such a degree of density and intensity, that the Germans, in order to

keep in communication with their lines back of the barrage have been forced to adopt the expedient of enclosing their messages in a grenade or a shell and firing it through the barrage.

In the early part of the war, the

Germans used the system of running back field telephones from the advancing troops. When these lines were constantly cut by shell fire, efforts were made to run the lines underground. But here again the French high explosive shells were developed to a degree where the lines could not be conveniently buried at a depth beyond their reach.

Wireless telegraphy has since been tried by the Germans together with long flying airplanes while the use of individual soldiers who endeavored to run back through a barrage with messages came likewise to prove both too costly from the point of view of human life and of uncertainty as to the eventual arrival of the message.

Germany's new system of endeavoring to shoot back her communications with trench mortars and trench cannon has only recently been hit upon.

The grenades or shells in which the messages are enclosed are referred to in the German orders as "Nachrichtengeschosse" or "projectiles for messages."

The Oregon Agricultural College

Where trained specialists with modern laboratories and adequate equipment give instruction leading to collegiate degrees in the following schools:

AGRICULTURE, with 15 departments; COMMERCE, with 4 departments; ENGINEERING, with 6 departments, including Civil, Electrical, Highway, Industrial Arts, Irrigation, and Mechanical Engineering; FORESTRY, including Logging Engineering;

HOME ECONOMICS, with 4 major departments, including training in the Practice House;

MINING, with three departments, including Chemical Engineering;

PHARMACY. THE SCHOOL OF MUSIC, offers instruction in the principal departments of vocal and instrumental music.

THE MILITARY DEPARTMENT, enrolled 1085 cadets in 1916-17, and won recommendation for O. A. C. from the Western Department of the U. S. War Department as one of the fifteen "distinguished institutions" of higher learning. All cadets will be furnished complete uniforms by the U. S. Government and the junior and senior cadets, enrolled in the R. O. T. C., will be given commutation for subsistence, as well as all transportation and subsistence at the six weeks' Summer camp.

REGISTRATION BEGINS OCTOBER 8, 1917. Information on request. Address, Registrar, Oregon Agricultural College, Corvallis, Oregon.

"Message carrying bombs" are fired from the 1916 model of mechanical trench grenade thrower. This has a range of about 600 yards and is counted upon for maintaining communication between the first line and the commanders of battalions and regiments, who under the German system, always remain at the rear of the advancing and fighting troops.

The second class used, the "Loichte-Nachrichtengrüne" or "message carrying shells" are to be fired from the "Minenwerfer" or trench mortar for firing torpedoes. These have a range of about 1,300 yards and with them the Germans hope to keep up their communication through the French barrage fires between the battalion and regimental commanders in the rear of the advancing troops and the artillery, brigade and divisional headquarters still farther to the rear.

According to the German orders that have been found the distribution of these messages carrying grenades and shells to the troops on the western front began about June 1.

Experience the Best Teacher.

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take.

GERMAN SOCIETY IS STRICTLY AMERICAN

Portland, Ore., Sept. 5.—The Portland Social Turn Verein—German in name, origin and membership—is unquestionably American. Here is part of a paragraph taken from its fall program:

"The Portland Social Turn Verein, an American institution, has as its aims the promotion of a systematic, intelligent and scientific development of physical, mental and moral—raising membership is restricted to

"Where There's A Will"

the old proverb tells us, "there's a way."

This saying has no better exemplification than in the saving of money.

All that is necessary is determination in making the start and strength of purpose in regularly saving some part of the daily, weekly or monthly earnings. Thus is the keystone of financial success securely laid.

This institution invites Savings Accounts.
