

Progressive Prescription Methods

to the casual observer there is but little difference between the drug shop of 20 years ago and today. If asked for the greatest difference you probably would say—in the lines of sundry goods carried. But it is behind the prescription case that the change is greatest. Nowadays it takes constant study to keep posted on the many valuable remedies that are being discovered. We keep right up-to-date—have a stock of modern prescription drugs—our prescription department is equipped with modern apparatus and all compounding is done by experienced pharmacists.

This Special Prescription Service is worth a great deal to you but we make no extra charge for it.
