

Children Like Our Castor Oil

It is pure, cold pressed, full strength Castor Oil with all the disagreeable part left out. It is as palatable as honey, will not disturb the weakest stomach and never causes griping.

It is as satisfactory in results as it is agreeable to take. No trouble to get children to take it. This is a special Castor Oil preparation of our own and we recommend its use in place of the plain nauseating oil.

Chester Clark Dead

The many friends of Mr. and Mrs. Roy J. Clark will be pained to learn of the death of their son Chester, at their home in Astoria on Friday last. Mr. Clark was the former general secretary of the local Y. M. C. A. and transferred to Astoria a little over a year ago in the hope that the lower altitude would benefit their son's health. Chester was about 17 years old and was of a disposition that made many friends. The funeral will be held tomorrow.

The above information came by telegram to George Gilbert Saturday evening, but did not reach him until his return from Enterprise late yesterday.

WHEAT PRICES ANNOUNCED

(Continued From Page 1.)

and private terminal warehouses or elevators.

The Food Administration Grain Corporation will not solicit consignments. Will not pay drafts or advances.

Direct consignments to Grain Corporation will not be encouraged and a charge of one per cent will be made for handling such direct consignments.

It is the purpose and intent of the Food Administration to interfere as little as possible with the buying, shipping and forwarding of grain as this would necessitate an army of employees, leaving this work as much as possible to the warehouseman and elevatorman, dealer and commission merchant.

The Food Administration will endeavor to retain sufficient stocks at advantageous points having in mind the milling facilities and requirements. Further instructions will follow as

rapidly as definite plans are formulated.

There has been more or less confusion and misunderstanding regarding the 30 day limitation clause.

The Food Administration does not require that this particular clause be inserted but it does and will require that no storage be given anywhere beyond thirty day period, excepting for the Food Administration. In other words as an illustration, if the Food Administration find it necessary to retain wheat at certain points, warehousemen will receive special instructions to do so for the account of the Food Administration.

The using of this clause was suggested to the elevatormen and warehousemen for their own protection. The Food Administration do not care how they reach that point, but they are required to abide by the thirty day limitation, and in order to protect themselves, the use of that clause was suggested.

Yours Truly,
FOOD ADMINISTRATION GRAIN CORPORATION
