A Money Saving Sale of New Fall Crepe-de-chine Blouses

that demonstrates most convincingly how our patrons benefit from our cooperative merchandising methods

A great many months ago, in fact early last Spring, a manufacturer of good Waists, bought tremendous quantities of fine silk.

He knew that prices would advance excessively—as they since have.

He likewise knew that a certain number of good stores would take all the Waists he could produce, figured on the basis of cost of material to him.

We together with other merchants in other cities, placed open orders for these Blouses, to be delivered at periodic intervals during the Fall and Winter, to be made up in the new and wanted styles.

The first allotment has just come in, and will go on sale tomorrow.

As was expected they are most unusual in value, for in addition to the saving on the material, the arrangement effected many other savings: such as eliminating selling expense and lower making cost.

Selling as we buy, giving our patrons the benefit of any advantage we possess, instead of charging "all the traffic will bear" the Blouses will be sold, while they last, (for no more of the styles can be obtained) at:

\$3.95 and \$5.50

New Fall Wash Waists, \$1.00 to \$2.25
