We are enthusiastic about them and
our customers are, too. They em-
body unusual style and value at
reasonable price.

The Fall Suits and Coats are a notable feature of our garment display this season, and the showing is attracting a great deal of attention. The reason—just glance at styles now in stock and all doubts will vanish. They have put style-touches in these dresses that are found in none others, and have done so with marked success. You must see the entire showing to know how attractive a feature our garment display really is.

"A GIRL'S FOLLY" SHOWS
HOW A MOVIE IS MADE

All phases of the work of a big motion picture studio are shown in detail in "A Girl's Folly," the striking, unusual and intensely interesting film play released by World Pictures Brady-Made and starring Robert Warwick and Doris Kenyon.

Because of this fact this film should prove of exceptional interest to all film fans throughout the world.

Every film fan who has ever wondered just how the movies are made or who has ever longed to visit a studio and see the activities of such an institution for himself, will be delighted with this production. When it is realized that a thrilling story and a delightful romance have been made with the studio for a background, it will be seen that an especial treat is in store for moving picture patrons in "A Girl's Folly." This interesting picture will be seen at the Arcade today and tomorrow together with a Keystone Comedy.

WE ASK YOU TO
COMPARE

MODART CORSETS
Front Laced

WITH ANY OTHER CORSETS

We ask you to compare for—quality.
We ask you to compare for—lines.
We ask you to compare for—workmanship.

And when you have given it a thorough, impartial test by wearing it—we will leave it to your judgment whether or not there is any other front laced corset in the Modart class. We chose to specialize on the Modart Front Laced Corset, to feature it in our advertising, to recommend it to our customers—only after a thorough study and search of the corset field. And only after we were convinced that no other front laced corset compared with Modart in quality and fine fitting features, did we choose them.

Our expert, scientific corset fitting service always at your free disposal
